Sensory Fun

These materials encourage the use of touch to learn about objects and the environment, as well as to help build an understanding of the body and its relation to the world around it.

BACK TALK

A fun game where players try to guess what object has been drawn on their back. Cards are laid out on a table and each player in turn, becomes either the "artist" or the "canvas". Using a plastic stylus, one of the pictures from the deck is drawn on your back and you must focus on the feeling and guess which one it was. Terrific game emphasizing tactile discrimination, non-verbal communication and fine motor skills. Back Talk, the game where everyone is an artist, but your works of art are not seen, only felt!

T8052

SOUND BLOCKS

Beautiful set of 16 cubes contains 7 different and very distinct sound making materials. There are two blocks for each material, one yellow and one blue. Two blocks

are purposely empty, assisting children in understanding the difference between sound and silence. A fun, engaging and highly durable tool helping to improve auditory discrimination, memory and matching skills. **T5736 Discontinued**

K - BASKETBALL

K- Ball, short for Kinesthetic Basketball, is a basketball game you play with your eyes closed! Impossible you say.....read on! One side of the 11" x 17" dry-erase surface depicts an entire basketball court, complete with men and a scoreboard. The other side shows only half court with men arranged in foul shot position. The men are actually preprinted circles and squares in 2 different colors scattered across the court. The object of the game is for the human players to score points. To do so, your game piece or tip of a dry erase marker is placed on your shape at center court. Decide which of your teammates you want to "pass" to and practice that move 2 or 3 times with your eyes open. When ready, make that same move but with your eyes closed. If your dot lands totally inside your shape, then it was a successful pass and you get to go again. If you missed your mark, ball goes to the other side. Feeling lucky?... go for that 3 pointer! Play individually or in teams. It's loads of fun and everyone's sensory system gets a real kinesthetic workout! Helps improve awareness of body position for young and old alike. So, why not challenge Grandpa to a game of K-Ball!

T5033

MY BEATING HEART

My Beating Heart is a soft huggable heart with the soothing heartbeat you can really feel! When hugging the heart to your chest, the tactile and auditory input reminds you of holding and stroking a favorite pet. The calm and subtly changing beat

models the human heartbeat in a meditative state. You quickly begin to relax and de-stress, your respiration changes and naptime may not be far away. Try using My Beating Heart with children as part of calm down or bedtime routines, or as part of a sensory diet, prior to starting homework or before any high stress, anxiety provoking situations such as, trips to the doctor, dentist, or hair salon. You may need to buy 2, one for therapy and one for yourself!

EXPLORER RING

Totally unique, clear plastic bead filled ring. Beads flow from one chamber to the next based on the performance of a variety of fine motor tasks. Encourages tactile, auditory

and visual exploration while working on basic hand skills, timing, visual tracking, motor planning and bilateral coordination. Game booklet with play ideas for all levels included. 12 inch diameter. **B3033**

SEE-N-READ

See-N-Read is an innovative reading tool designed to assist readers to seamlessly see, focus, and remember the written word. The clear reading window is surrounded by non-glare, tinted, transparent film that reduces line skipping, allows readers to more easily concentrate on content rather than location and helps readers transition from one line to the next without coming to a complete stop. A proven reading aid and organizational tool!

T4971

KLICK TOY

This is a first class finger fidget! Made of small plastic links in two colors, that as you bend them, make a rewarding "click" that can be heard and felt. A perfect way to help hands stay busy so body can rest and mind can attend. Doesn't everyone need a klick toy?

COLOR READING GUIDES

These colorful strips of transparent plastic help isolate a line or paragraph of print for easier reading. The black oblique lines at the top and bottom frame the desired text keeping visual confusion to a minimum and improving scanning ability. Some people even feel the printed text becomes visually clearer, easier to read and experience less eye strain. The single line strips are especially good at helping children keep their place while reading.

MINI RAINBEADS

This is a new smaller size version of our popular rainbeads product. This see through rainstick provides very pleasing visual and auditory stimulation, as the small colorful balls cascade through the tube. Cylindrical shape allows child to roll it across the floor or table and smaller size makes it easier for small hands to manipulate and more convenient for travel. **V4441**

CHOKING HAZARD Small Parts Not for under 3.

WILBARGER PRESSURE BRUSH

Designed by Patricia Wilbarger for use when following her

Therapeutic Massage Protocol ("Brushing Protocol"). The built in, non-removable handle makes it very comfortable for the caregiver, producing less hand strain and slips of the brush. More consistent input produces better results. Best results are seen when protocol is administered properly by a trained individual.

T2261

SCRUB BRUSH

Scrub-a-dub-dub! The bristles of this small rectangular plastic surgical scrub brush feel soft if used in one direction but stiff and coarse if used in other direction. The bristle tips are specially cut to create a three sided point so more surface area of the brush makes contact with the skin. Try it for tactile defensive programs, sensory stim, or just to wash hands and fingernails. (Approximately 2" by 3"). Course Brush also available for sensory stim and exploration (not for scrub programs!)

Scrub Brush T2201

Course Brush T2202

REUSABLE BRUSH HANDLES

Curved plastic handle snaps on to either of our rectangular brushes making grasping and scrubbing more comfortable. Easy to remove when brush needs replacing.

T2213

KOOSH BALLS

The original "hairy" balls that are easy to catch, hard to put down and big

Their soft and silky feel encourages sensory awareness, finger movements and motivation. Try catch or racket and ball games. Super for indoor and group games.

PLAY FOAM

It's the perfect tactile experience! You can squish it, sculpt it, mold it, roll it, cut it, save it or smoosh it and start all over again! It never dries out, is lightweight and comes in 6 colors. Play Foam won't crumble or stick to skin or clothing... So requires no clean up. These remoldable sculpting beads provide that messy, tactile experience without the mess. A great beginning activity for those tactile defensive children, parents and therapists. **T3543**

SPARKLE PLAY FOAM

Add some "bling" to your tactile playtime with this bright, sparkly version of playfoam. You can see and feel the fun!

T3544

TOUCH PLAY TENT

Gadzooks, this is the easiest ever tent to put up and take down. Patented "one touch" technology lets you simply remove tent from carry bag, unfold it, lift up and then push down. It's all set and in a matter of 60 seconds you have a quiet reading space or isolated, calm down spot in a classroom corner. Use it the same way at home, or in the clinic. Playtime becomes more creative and maybe naptime less stressful. Also, great when traveling with children. Use at the beach, in the park, or your own backyard. This ultra high quality tent has been engineered with the structural stability to withstand wind and provides protection from UV rays. Each 48 x 48 x 36 high tent is UV treated, SPF 30 rated and has a water proof floor. The kids love it and so will you!

FICKLE FOAM

Four-inch square of thin foam with a laminated top. Watch the surface turn color whenever touched by the warmth of your fingertips or other body parts. Fun to watch and a great cause and effect toy. Try isolating fingertips or using your toes!

T7546

RELAX BOOK

A small book takes on a big topic and does it right. The first part of this 35-page book talks to children about what can cause stress and anxiety in their lives. Things like a new baby, being bullied, parents fighting and test at school. The second part teaches them to find ways to keep from being overwhelmed. Breathing, stretching, attitude, changes and imagery are a few of the many coping techniques and relaxation exercises presented. Kid friendly illustrations and text, but not childish. Can be a great bedtime book to help relaxation for sleep.

T5832

SCENTED PLAY CLAY

Kids love this new play clay! It's soft and pliable, brightly colored, strongly scented and designed to last. Completely natural-nontoxic. Scented to match the colors (red-cherry; purple-grape...) Set includes 7 cups each a different color. (Larger buckets available on request)

UNUSUAL SQUEEZE BALLS/ODD BALLS

We're very excited about these fun balls. They're tactile. They're visual. They're stretchy. They're squeezable. They're balls, but they don't bounce and they are very hard to put down! Each is slightly different, but all are highly pleasing to look at and play with. We could not decide which one we like best, so we got them all! (Although made of nontoxic and durable material, caution and common sense should be used. They will weaken over time and break. They also will break if punctured, bitten or abused. Choke hazards may be present if broken. Also, please avoid temperature extremes which will effect materials). **Please note: all balls on this page contain latex and**

LAP LANDER 2

A terrifically effective and less invasive alternative to the use of weighted vests. Weighted with 4 lbs of popcorn seeds, the Lap Lander reaches across the lap and down the thighs (9"x18") to provide increased proprioceptive feedback and stability for user while sitting at a desk or on the floor. Helps reduce hyperactivity and agitation while increasing attending and organization. Made from

attractive, machine washable, kid friendly fabrics with puff paint embellishments for increased sensory output. Separate pockets in which hand and fingers can play and hide.

JITTER CRITTERS & VIBRATING SQUEEZIES

Just pull the cord and feel or watch these guys go. They shake, wiggle and rock-n-roll until the cord retracts. Want more? You'll have to pull the string again. Highly motivating bilateral toy reinforces cause and effect and provides rewarding vibrating input to the

hands. Place them on table top and watch them dance. No batteries required but fair hand strength needed.

SNAP BAGS

These 6 linking beanbags offer a wide variety of play and positioning options. Snap all 6 together and use as a shoulder or lap weight to provide calming proprioceptive input or stability where needed. Children can work on fine motor control as they snap and unsnap the bags in different number, shape and color sequences. Try tossing and catching 1, 2 or 3 snapped together. Includes draw string storage bag and booklet of other play options. A versatile, must have piece of equipment for every therapy bag or clinic space.

ARM & HAND WEIGHTS

An easy, very functional means for providing proprioceptive input to forearms and hands thereby increasing kinesthetic awareness during fine motor and self-care activities. Can also be helpful in providing increased stability for those with instability or tremors. Made from durable lycra, double stitched for strength and filled with lead-free steel shot.

WEIGHTED VESTS

While attractive to look at, this vest is also uniquely designed with weight pouches at, but not on the shoulders, as well as on the front and back. Weight is distributed evenly across the upper body. Comfortable for the wearer, it provides proprioceptive input and stability, helping to calm children and improve attending. Remove all weight pouches before machine washing the satin protected cotton denim material.

COZY COMFORTER™ BY WEIGHTED WEARABLES™

The first thing you will notice about these comforters is the high quality of the workmanship and materials used. They are beautiful to look at and a pleasure to feel. With the pleasing printed fabric on the outside and the cozy fleece underside, it is easy to imagine yourself or your child wrapped in its weighted folds. Use at school, home or in the clinic, while playing, resting or sleeping. The all over body pressure/proprioceptive input provided by the quilt works to relax the body and calm the central nervous system. Great for use with highly active, unorganized children and adults. Available in two sizes, and in juvenile print or attractive plaid fabric. The weight tubes are easily removed for machine washing and drying.

MIRACLE BELT™

The Miracle Belt is a weighted therapy belt for children which promotes self calming, balance and increased body awareness by enhancing proprioceptive feedback. When wearing the belt children quickly feel more grounded, focused and secure. Attending and stability improves, distractibility decreases and children are better able and more neurologically prepared to participate in tasks and activities at home, school and at play. The proximal/central location of the Belt at the waist means less weight is required to effect a change. Worn under or over clothing, the Miracle Belt is a wonderfully freeing alternative to weighted vests. Made with EVA foam and neoprene weight pouches filled with tiny stainless steel balls, the Belt is one of the most comfortable, safe and durable sensory processing aids available!

T7021 Small belt: child weighing 15-25lbs - waist of 14"-24" 1lb.

T7024 Medium belt: child weighing 25-45lbs - waist of 16"-26" 2lb.

T7025 Large belt: child weighing 45-75lbs - waist of 18"-28" 3lb.

T7071 Xlarge belt: child weighing 75-125lb - waist of 26"-36" 4lb.
