Air Filled Seat Cushions:

Kids think these seat cushions are “cool beans”, but they really are filled with air! All the items in this product line are dynamic, air filled seat cushions. They are used to help fidgety or under aroused students maintain an appropriate level of alertness and attending, by providing ongoing vestibular, (movement) input, in a manner acceptable in the classroom. Additionally, they help facilitate a more upright sitting posture, strengthen trunk muscles and reduce back strain from prolonged sitting. All are made of high quality plastic for durability and easy cleaning. Latex free. Easily transportable and great for home and school use.

BUMPY DISC JUNIOR SEAT CUSHION

This seat cushion is 13” in diameter, has one bumpy and one smooth side and inflation level can easily be adjusted. The greater the inflation level, the more movement possible. In general, it has a thinner profile than other disc’s. Also great for working on standing balance and for floor sitting. **C6451 \$32.95**

CHOKING HAZARD Small Parts/Plug Not for under 3.

FITBALL BALANCE DISC

A very versatile and dynamic piece of equipment. This 14” inflatable air filled cushion can be used for sitting, standing or kneeling. Attractive blue color with long sensory points on one side, and a smooth, flat surface on other side. Great for home, classroom and clinic use. **C6459 \$22.50**

CHOKING HAZARD Small Parts/Plug Not for under 3.

SWISS DISC®

A useful addition to our seat cushion line. This disc is a round, slightly textured cushion with a larger 15” diameter and slightly beveled edges for added sitting comfort. Comes inflated to approximately a 2” thickness. Using our Pocket Pump®, or any pin valve pump, air can easily be added or removed. Great as a marker and floor sitting aid during “circle time” or any floor activity. Also used to improve balance in kneeling and standing. **C9110 \$36.95**

FITBALL SEATING DISC

Similar in design to the bumpy disc jr. The Dome-like profile is smooth on one side, bumpy on the other. green 12”. **C6413 \$24.50**

CHOKING HAZARD Small Parts/Plug Not for under 3.

ERGO-SIT

The texture of this 14 inch, air filled seat cushion is silky smooth, making it very comfortable. Additionally, the front edge is straight, not round, giving thighs more support and greatly adding to the comfort level. Comes with a small hand pump to adjust level of inflation.

C5321 \$31.95

FITBALL WEDGE

Same great wedge shaped design as the Move’N Sit in a slightly firmer, more rugged material. Provides dynamic seating, allowing movement while also improving posture. Smooth on one side, bumpy on the other. Try one for in the classroom and at home during meal times or when doing homework. This wedge has no carry handle.

C6458 Large 13” blue wedge \$29.95

C6414 Small wedge 10”green \$26.50

CHOKING HAZARD Small Parts/Plug Not for under 3.

KINDER ERGO-SIT

Small, 12 inch air filled cushion with small rounded tactile bumps on one side and a smooth surface on the other side. Made of soft, silky, latex free material that is very comfortable yet durable. Has a high profile and so acts very much like a therapy ball. Great cushion for small children with good balance. Also works great as a floor cushion.

C5320 \$22.95

MOVE ‘N’ SIT WEDGE SEAT CUSHIONS

These wedge shaped cushions come with one side highly textured with small bumps and one smooth side. Level of inflation is easily adjusted with a few puffs of air. Wedge shape offers slightly less movement so safer for those with less secure sitting balance. Also try with wide edge toward front to increase hip flexion or as a back support. 2 sizes available.

C6405 Jr/Preschool (~ 10”x10”) \$34.95

C6406 School Age (~13”x 13”) \$38.95

MODERN BALL CHAIR

The molded plastic frame and high back rest on this chair combine to make it a very comfortable, very stable, seating system. Perfect for use in the classroom, at home, or in the office. Sitting on the flexible slightly bouncy ball helps improve posture, sitting tolerance and attention to task.

C1999 Child 35cm ball \$121.95

C2888 Adult 52cm ball \$173.95

CHOKING HAZARD Small Parts/Plug Not for under 3.

Classroom Tools

DESK BUDDY

It's true—the best ideas are the simplest and frequently the most obvious. Developed by a long time teacher who found her students needed a place to contain all the small school supplies which otherwise take up space on their desk tops. Made of 7"x12" pliable, transparent plastic for ease in cleaning, durability, and ready visibility of the contents. Use year after year to hold papers, folders, scissors, crayons, pencils and so much more. Two Velcro strips keep it attached to side of desk or chair for easy accessibility. There is even a front pocket to hold nametag. A wonderfully simple way to help organize a student and your classroom!

Q7028 \$14.95

CLASSROOM CHAIR SEAT CUSHION

This seat cushion is not air filled, but was designed for the "antsy" student, the student who always sits on the edge of the seat or the student that sits on a corner of the chair with his/her feet out in the aisle. It helps to center the hips, by providing a small padded, physical wedge. The physical barrier on three sides help orient child to where his body is in space. Made of a tough, durable material and stuffed with a non-food substance. A large non-slip mat is sewn on the bottom to eliminate sliding. Available in 2 sizes and is hand washable.

C6720 Small (Preschool) \$25.95
C6721 Large (School age) \$29.95

Available in 2 sizes and is hand washable.

PFOT LOW PROFILE SLANT BOARDS

Ideal for classroom and home use. Low profile spring clip holds paper tight. Made from high quality, lightweight, easy to care for plastic, with smooth finished edges for safety. Will not shatter like plexi-glass if dropped. Features nonslip pads on the bottom and convenient "cut - out" carry handle. The 20 degree angle is ideal for writing and reading, offering positioning benefits for the eyes, neck, shoulders, trunk, arm and hand. Optional overlay provides a more pleasing, proprioceptive writing surface which can improve handwriting by diminishing pen/pencil slippage. Slantboards now available in black (without overlay); blue with overlay or mini size in black with overlay. Overlays are also available to add to your current slantboard.

W7001 Standard Black no overlay \$34.95
W7003 Standard Blue with overlay \$37.95

"This section offers a varied but select grouping of items for developing and improving the classroom skills of writing, and cutting. There are positional aides, special and unique pens, pencils, grips, crayons, markers, writing papers, instructional materials and fun activity based items"

CINDY'S EASEL

Amazingly versatile piece of equipment developed by an OT for use in a classroom or therapy setting. Sturdy, 15" x 12" crystal clear table top easel, 6 full sized -double sided activity sheets, pack of 6 dry erase markers, pack of 8 jumbo white board crayons and fabric eraser. Unique, "flip down" design allows 2 children to work at the easel at the same time. Simply slide in an activity sheet and start writing.

U5027 \$79.95

BOOK CLIP AND STAND

This amazing little metal clip works like magic. Books and workbooks of any size or shape can now stand open and ready for easy reference, while hands remain free. Ideal for when desk top space is limited, when using a slant board or computer, or when arms are too weak to maintain books open. Order several for a student, so one can remain in each classroom and at home for use during homework.

W8401 \$2.95

EASI-READER BOOKSTAND™

Totally collapsible, metal wire book-stand is well constructed for real heavy-duty work-outs. Simple, lightweight design neatly holds materials of any size (paperbacks, workbooks, and textbooks) open and easily within reach for page turning. Puts materials at a better angle for reading.

W3701 \$7.50

Caution: ALL children should be supervised when using scissors.

MINI LOOP SCISSORS

Finally, the ease of a loop scissor in a small, child size. The 5 in. scissor has a wider grip area for greater stability and it automatically reopens when pressure is released. Great beginning scissor for pre-schools, first-time cutters, or those with small hands. Suitable for use with either hand.

C7343 \$6.95

PLASTIC STAND

This clever plastic stand converts the loop scissors to a tabletop cutter, requiring just downward pressure to close blades. No grasping of scissors needed. Blade guard provided for safety.

C7342 \$5.95

SQUEEZERS

Ideal scissors for people with limited finger mobility and coordination. Short metal blades are closed for cutting by squeezing the coated loop handles together. Blades open automatically when grasp is eased. Helps reinforce basic open and close pattern.

W5405 \$2.95

SUPER SCISSORS

Easy to use, battery powered scissors for cutting paper, card stock, craft foam and more. Allows adults and children with reduced strength and coordination to be functional cutters. Chunky, pistol grip handle for ease of grasping.

C8853 \$7.95

LOOP SCISSORS

Lightweight, self-opening scissor with a continuous molded plastic flexible loop. Actual handle is wider than most and longer cutting blades allow for easier feeding of paper. Operate by gently squeezing, using fingers and thumb or fingers and palm. Release pressure and blades re-open automatically. Great first scissor or when strength is limited.

C7341R Right \$9.95
C7341L Left \$9.95

SELF OPENING LONG HANDLED SCISSORS

This scissor combines the added control of the long molded plastic finger opening with the greater ease of a self-opening mechanism. Isolated thumb hole facilitates isolated thumb movements. The result is greater success for even your most difficult cutters.

C7389R Right \$11.50
C7389L Left \$11.50

SELF OPENING SCISSORS

Looks like a conventional

pair of high quality scissors with molded plastic finger openings. These scissors, however, will re-open automatically when pressure is released. This assists when finger strength and motor planning of the open/close pattern required for cutting is difficult. The finger holes are wider than most, to assist with finger stability. Isolated thumb and finger holes facilitates isolated finger movements. A nice scissor for those not ready for Benbow's.

C7362R Right \$9.95
C7362L Left \$9.95

SPECIAL NEEDS SCISSORS

Unique rotating spring-clip morphs this from a standard scissor into a "self opening" pair. Squeeze stainless steel blades closed by applying pressure through the finger holes or through the outside of the plastic handles. Once pressure is released the blades will open automatically. Works well for beginning cutters or for those with finger strength or mobility difficulties.

C1341 \$4.95

CRAZY CUTTER

Amazing "mouse" shaped cutting device utilizes new ceramic

technology. The small ceramic blade at the tip will last forever but never cut your finger. It will cut paper, pictures, plastic packaging, shrink wrap and much much more. Held between thumb and index finger, cutting occurs as the Crazy Cutter is dragged along the surface of the paper. Since paper is cut while flat on table it only needs to be stabilized and not grasped. This will make cutting an easier and more successful task for many children and adults.

C7916 \$4.95

TOTAL CONTROL SCISSOR FOR KIDS

Same great Fiskars quality with shorter, precision ground blades, blunt tip, safer cutting angle and an extra index finger loop for better cutting control. Teaches proper finger placement right from the start.

C5460 \$3.95

SOFT GRIP SCISSORS

Quality kids Fiskars scissor with two-tone soft touch finger and thumb loops. Comfortable, all purpose scissors with different contours and cutting edges for right and left hand users. Pointed tip, assorted colors.

C5420 Right Hand \$4.95
C5421 Left Hand \$4.95

BENBOW SCISSORS

Wonderfully crafted scissors designed specifically for little hands. With small, vinyl coated, finger holes, shorter overall length, and a real cutting edge, control is increased. Using these scissors, cutting is more successful - so kids love using them!

THE PENCIL GRIP

Soft pillow pencil grip fits children or adults and left or right handed writers. Place thumb on the "R" or "L" and other fingers fall naturally into a cushioned tripod grasp. The larger size of this grip seems to work especially well with small hands, helping to maintain thumb abduction and an open web-space. **W3601 \$1.79**

THE JUMBO PENCIL GRIP

New larger size, same great positioning! The Jumbo Grip's elongated shape and larger end makes it perfect for maintaining an open web space and proper finger placement. So comfortable it 's like a "pillow" for the fingers. Latex Free.

W3634 Jumbo \$2.50

THE CROSSOVER GRIP

On to a basic "The Pencil Grip" body, they added a set of flexible wings. The wings help to maintain a mature tri-pod grasp with no hooking or "crossing over" of index finger and thumb. For either right or left hand use. Great grip provides support, comfort, and finger placement assistance. **W3602 \$1.75**

GROTTO GRIP

Great sculptured grip facilitates and maintains the fingers in a mature tripod grasp each and every time. Unique finger guards and special angles facilitate an open web space and hand and palmer arching. Discourages hyper-mobility at thumb and index finger joints. A grip with all the "write" stuff! Latex free.

W3652 \$1.65

SPONGY PENCIL GRIPS

Fun styles and designs! Soft cushioning foam pencil grips. Fits standard pencils and pens. Ideal for those writers who squeeze too hard

or who need a visual &/or tactile cue as to where to place fingers. 4 styles (Tip: place soapy water or lotion on pencil barrel to aid in sliding grip onto pencil.)

GEL GRIP

Fun new grip helps make writing a unique tactile experience. Inch long grip, in hot colors, provides great cushioning comfort, reducing hand and finger strain. "It looks and feels like my pencil is wrapped in a squishy gummy bear!" **W3722 \$5.00**

EZ GRIP

A different kind of pencil grip. The unique design allows one finger to exert downward pressure for writing, rather than all three fingers. This eliminates the need for a tight grasp and squeezing of the writing implement. Grip fits most standard pencils, and crayons, and can be used in a number of different hand/finger positions.

W3628 \$1.00 each

FERBY PENCILS™

A new writing and drawing experience: not short, not long, not round, not angular...simply Ferby™ and simply a wonderful feel in the hand. Developed in cooperation with physiologists and educators, the new rounded triangular shape and un-lacquered wood barrel ensures comfortable, proper grasping every time. The well balanced shorter than standard length and the extra thick, soft lead makes it an ideal beginning pencil.

(set of 3) **W3617 \$4.95**

BIG DIPPER PENCIL

Classic round, wide barrel, pencil with the thick lead we all used when we first started writing. Now comes eraser tipped.

W5611 (set of 3) \$1.95

NEXT STEP FERBY©

A great in between size pencil. Slightly smaller than our primary triangular and larger than the "Bobby", but same great rounded triangular shape and smooth writing, break resistant lead for fine lines.

W3619 (set of 3) \$4.50

TRIANGLE "BOBBY" PENCILS

Same great rounded triangular shape and quality as the Ferby, but with standard #2 lead and thinner, standard diameter barrel. Looks right and feels right. Perfect for the slightly older student.

W5570 (set of 3) \$2.50

TRIANGLE PRIMARY PENCILS

A new twist on the young child pencil - they're triangle shape! The wide barrel, thick lead and three sides facilitates a more mature grasp, and greater control, while eliminating rolling. Try them they're cool!

W5572 (set of 3) \$1.50

TRI-GRIP PENCILS

The high tech appearance of this quality primary pencil draws children to it and to writing. In addition to its silvery good looks, other qualities include a full-length, lightweight, rounded triangular shaft covered with rubberized "grippy" dots, and a soft, dark lead. Design features facilitate a comfortable, non-slip, three-point grasp and darker writing with less pressure for the young hand.

W7452 Jumbo (Set of 3) \$3.95

STETRO GRIP

Much softer and more pliable than original Stetros to insure greater comfort and easier workability for all ages. With new ultra bright fluorescent colors and increased comfort, children will not only write properly but more willingly too! Buy them individually or in packs of 30 or more.

W5501 (Each) \$.35
W5502 (30 or more) \$.30

TRI-GO PENCIL GRIP

These new plastic grips are designed for quick and easy use. There are three molded holes where fingers set, the biggest hole is for the thumb. Holes allow fingers to touch the pencil for greater tactile input. Can easily be used by lefties or righties.

W3608 \$1.00

SOLO GRIP

This "sting ray" shaped grip goes on pencils the same way for right and left handed users. The "R" and "L" indicate the thumb placement, index and middle fingers then fall comfortably into place. Made of latex free rubber, the solo grip comes in a variety of fun colors.

W3606 \$.60

START RIGHT™ PENCIL GRIP

The big grip with the big heart. Uniquely shaped grip is great at developing a three point, opposed, pencil grasp. Effectively blocks thumb IP extension and facilitates thumb opposition. A wonderful new grip, especially for younger children.

W7310 \$1.75

WARNING: ALL PENCIL GRIPS CHOKING HAZARD-Small Parts. Not for children under 3 yrs.

EZ WRITE GRIP

Terrific new grip snaps easily around a wide variety of writing implements, helping to eliminate hand/finger strain, cramping and fatigue. Uniquely designed to allow fingers to wrap naturally around barrel while also encouraging finger contact with the implement. The extended length and grippy texture improves control with pens, pencils, crayons, paint brushes, markers, drafting tools, etc. Place a different color crayon at each end making your own 2-colored crayons!

W3655 \$1.00

KUSH-N-FLEX GRIP

It looks like a porcupine, but it's a pencil grip! Hundreds of soft tiny massaging bristles wake up your fingers so writing is never boring again! Rub one between palms for a great sensory workout or try stacking a few on your pen to provide all over input.

W7602 \$.45

BIG PENCIL TRIANGLE GRIP

Designed to fit easily on thick primary pencils this big chunky plastic grip helps open tight fingers and encourages a tripod grasp.

W3626 \$.75

AIR GRIP

Smooth, soft plastic grip with the rounded triangular shape facilitates proper finger placement on pencil increasing speed and control.

W3681 \$.50

THICK 'N' THIN PENCIL GRIPS

Thickly padded grip with the wide even thicker ridges and finger stabilizing lip to aid in grasping.

W3643 \$.35

PFOT MINI PENCIL

The round pencil barrel and lead are both of standard size but the shortened length makes it easy for little hands to control. Comes sharpened with an eraser.

W7201 (set of 3) \$1.00

THE WRITING CLAW

Unique addition to our extensive line of pencil grips. The Claw's center opening stretches to allow most writing implements to pass through, making it one of the most versatile and easy to use grips around. Once placed over implement, the thumb, index and middle fingers each fit into one of the thimble like cups, ensuring correct finger position and use of a true tripod grasp when writing. Works as easily for right or left handed writers and is latex free. Choose from 3 sizes.

LIGHT-UP PENS

These clear pens with the blue crystal ball may be just the motivator you have been missing for improving writing endurance and adjusting writing pressure. With too much pressure the light in the end of the pen stays on. With too little pressure it does not come on at all. With typical variations of pressure the light will flash on and off. For those students who write too lightly, ask them to keep the light on as they write or draw. If they tend to push too hard, ask them to not let the light come on at all. The light provides immediate feedback as to what the hand is doing. For some people the

tactile feedback is not enough. But either way, kids love writing with these odd looking pens, so try 'em, you'll like 'em and your students may just write better with 'em!

HANDWRITING PAPERS REVIEWED: What a Difference a line makes!

A helpful resource compiled by two occupational therapists to help other therapists, teachers or parents, who provide intervention and/or recommendations for handwriting. The booklet outlines many of the different types of lined writing papers available by providing a brief narrative description along with an illustration of how the lines are used to guide letter placement. Sometimes providing the slightest adaptation achieves maximum changes in performance. Booklet helps organize a confusing subject.

PRIMARY READY WRITE PAPER

Pack of 250 sheets of 11" x 8-1/2" writing

paper with colored rule lines to assist with proper pencil placement for writing letters. Dark green top and light green center lines indicates go or start and red bottom line indicates stop or caution before passing through it to form a tail letter. Paper is 20lb stock, 1 inch rule on both sides, with 1-inch space between writing groups. Really helps organize when learning to print letters.

W6680 \$10.95

MODERN PRINT PAPER

Pack of 250 sheets of white paper ruled 3/4 inch with dark green top line (go/start), light green center line and red baseline (stop). 3/4 inch descender space between line groups for letters with tails. Perfect next step for printing practice after the Primary Ready Write Paper.

STANDARD WEIGHTED PENCIL HOLDER

PEDIATRIC SIZE

Same 4 inch long weighted holder but without the deluxe vinyl cover. You get one long weighted sleeve with a 5/8" dia and 3 3/4 oz weight. Made from same material as the pencil weights but with the 3 set screws can hold items up to 5/16 of an inch in diameter. Comes with allen wrench and pencil.

W3686 \$22.95

DELUXE WEIGHTED PENCIL HOLDER

PEDIATRIC SIZE

Vinyl covered sleeve/holder used for increasing weight of writing implements. Holder is 4-in. long, 3/4" in diameter and weighs 4.0 oz. Comes with a pencil and small allen wrench for adjusting the 3 set screws which hold the pencil in place. Works best with shorter implements.

W3624 \$24.95

HANDWRITER

This clever device does a number of things, all at one time to help maintain proper position of pencil in hand. To use: place the large loop around wrist, so that charm hangs straight down. Now hold charm into palm using ring and little fingers, then grasp pencil and place other loop around upper end of pencil. The pull or tension created helps keep the pencil at an appropriate angle in the web space. Many children respond favorably to this pull saying, they like the feel in their hand. The friendly plastic charm, facilitates isolation of the two sides of the hand by keeping the ulnar side closed. Recommended for use with implements a minimum length of 5 inches.

BETTER BUMPY PAPER: COLORING BOOKS

We have begun referring to these as the "sky high" coloring books. That's because the raised outlines of the drawings are the highest we have ever seen. This provides the greatest quantity of tactile input and the greatest deterrent to coloring outside the lines. Wonderfully successful for children with poor coordination, sensory irregularities and/or low vision. Level one books are simpler with a single object to color. Level 2 pictures are more complex and scene-like.

KUMON – FIRST BOOK OF LOWERCASE LETTERS

Very similar to the Uppercase Book in progression from single to more complex letters but with the presentation of more words beginning with each particular letter. A greater number of opportunities for tracing each letter is also available. This all combines to encourage somewhat older children (4, 5, 6

year old) to repeatedly practice the needed fine motor movement required to master lowercase letters.

W5367 \$6.95

KUMON – FIRST BOOK OF UPPERCASE LETTERS

This book provides young children (3,4,5, year old) with the opportunity to develop basic pencil control skills and learn the shapes of the upper case letter of the alphabet. Easier to form letters are presented first with gradual progression to the more different ones. The thickness of the letters traced also progressed down through steps till finally the only prompt is the thin dashed outline of the letter. The fun colors and diverse graphics make this an entertaining and easy way to help children learn to read and write uppercase letters.

W5365 \$6.95

KUMON FIRST MAZES

For children ages 3, 4 and 5 this first book of mazes is a great way to build a strong foundation for pencil skills and reasoning ability. There are 80 bright colorful mazes which progress from simple to more complex. Two and three dimensional illustrations keep interests high and help motivate for improved pencil control, visual perception and decision making.

DRAW WRITE NOW:

These books contains a unique collection of beginning drawing lessons and text for practicing handwriting. Developed by a teacher in response to her second grade students frustration with their drawing efforts and repetitive handwriting drills. The children are taught to see complex objects as combinations of simple shapes. Fine motor skills improve and images become more easily analyzed. Language skills are facilitated as pictures and stories are discussed. As technical skills improve so does self-confidence and creativity. There are 21 lessons in each 64 page book. Most pictures are broken down into 6 steps with the new lines highlighted.

TV TEACHER

TV Teacher's Alphabet Beats are fun, educational videos designed to help all children, but especially those with strong visual systems, learn to write the alphabet. In these completely unique videos, Miss Marnie demonstrates the actual writing sequence for a letter both on the board and on a sheet of paper. Letter formation is always paired with catchy rhythmic chants that parallel the actual writing strokes.

But more than just writing, each letter is its own 5 minute chapter and includes the writing demonstrations/exercises along with 8-10 vocabulary words and basic learning concepts, i.e. body parts, spatial concepts, animals, social and sensory interactions, etc. The great visuals and quality production, along with the strong auditory and visual repetition, combine to make this a fun, engaging and highly effective means for teaching handwriting!

*As an added benefit, TV Teacher has made available on their website, all the templates that Miss Marnie uses in the videos. These include the camel she colors, the star she cuts, the picture she paints, etc. This is a great way to encourage some extra fine motor work, reinforce learning and increase interaction and motivation.

STROKES, SHAPES & SCENES

Another innovative DVD from the TV Teacher, created specifically for children just beginning to hold a crayon. In "Strokes," young children are seen practicing basic strokes in a variety of textures including, shaving cream, sand, and finger paint, etc., helping to build strong motor planning foundations for learning to write the alphabet. Miss Marnie uses catchy songs and strong visuals in the "Shapes," section to teach the formation of basic shapes along with some of the pictures you can make from those shapes. Creativity, imagination and abstract thinking are all encouraged. In the "Scenes" section children experience 4, fun adventures with Miss Marnie and then are prompted to use memory recall to help draw a complete picture about the adventure. This is the only structured program teaching students how to take experiences and translate them into a drawn picture. A motivating and fun way to progress kids from pre-writing to pictures!

POWERFUL PRINTING™ - CONQUERING CURSIVE™ HANDWRITING PROGRAM

This is the program we have all been waiting for! Write-On! Using the computer mouse instead of a pencil and the computer monitor instead of paper students learn the proper spatial orientation and sequential movements of letter formation. This helps build the all important motor memory needed to reproduce letters. Powerful Printing™ and Conquering Cursive's™ patent pending handwriting curriculums for grades K-3 pairs engaging and diverse computer/digital based instructions with print/paper based exercises, breaking the tedium frequently associated with boring, repetitive, print only, handwriting instructions. Additionally, since the program monitors all work, only correct letter formations are reinforced. Comes with complete instructions for use, suggestions and key points to improve performance, warm up activities, sample lesson plans along with a digital workbook for 1 computer, 1 paper workbook, teachers manual, font and worksheets. You choose manuscript or cursive and right or left handed print workbook. All upper and lower case letters and numbers 0 -9 are covered in all versions. The software is CD-ROM based, networkable and appropriate for both

STRING ALONG KIT

It's a frustration free stitching, lacing, pattern following wonder! Unique design board, 18 colorful laces and kid-safe punch pen invite free play or copy the 16 full color patterns. Punch pen uses similar grasp and movement patterns as a pencil, so visual motor control is practiced and design copy skills, counting and spatial relations are reinforced. A fun, re-usable, "picture perfect" product for everyone.

W3515 \$15.95

PULL THE STRING

This very unique play board lets you write and draw using a pen threaded with colorful strings. Thread the pen and push the tip into one of the holes in the board. When you lift the pen the string will stay in the board. Repeat this action to create an endless variety of colored lines and shapes. If you make a mistake or want to start again, simply pull the string for a clean slate. Similar

to our "String Along," but more resistive heavy duty board for added hand and finger strengthening. Comes with one board and pen, 15 design cards and 8 strings. A fun motivating way to work our design copy, spatial awareness and pencil control.

FINE MOTOR DEVELOPMENT KIT

BY MARY BENBOW, OTR
& ZANER-BLOSER

Mary Benbow has extensively published and lectured on the hand and development of fine motor skills and writing. She now has written a teachers guide. It includes a functional overview of the hand; what to look for and why it's important and 25 different activities to do to help develop weak areas. And best of all, all the materials needed for the activities are included - all in one convenient kit! Easy to understand, simple to do activities that really can make a difference in hand development and handwriting! Great for a learning "center" in the classroom or as a handwriting treatment program. It's also ideal for parents to use as a hand development home program.

LOOPS AND OTHER GROUPS - A CURSIVE HANDWRITING PROGRAM"
BY MARY BENBOW, MS, OTR/L

A wonderfully easy and imaginative program for teaching students from 2nd grade through high school, cursive handwriting. Especially effective for students with learning disabilities and perceptual delays. Letters are taught in groups that share common movement patterns. This taps into the kinesthetic system, helping students "feel" and visualize the letter formations. Easy to remember motor and auditory cues aide students in learning the letters. Two levels of booklets available. Level 1: is used with students during their first year of cursive writing instruction. Level 2: reviews lower case letters and concentrates on the practice of upper case letters.

HANDWRITING FONTWARE PROGRAMS

If you're involved in teaching children to write, you need this software! Specifically developed to make life easier, the fontware programs allows you to use modern technology to produce customized and individualized writing worksheets. You never again have to make by hand, "dotted" outlines of words or letters. You are free to expand your spelling lists and writing lesson plans beyond workbooks into the classroom curriculum. Follow directions in the user friendly guide to print worksheets in manuscript or cursive writing with dotted or outlined letters, linked or unlinked letters, with rule line or without, in a variety of sizes. Once created, save your worksheets for reprint or modifications at another time. Each CD now comes with the following font styles: D'Nealian, Zaner Bloser, "Loops and Other Groups" and "Handwriting Without Tears®" fonts. Each package also comes with fingerspelling, morse code, emo-face font styles for designing supplemental learning activities.

Classroom Tools

As of Jan. 2008 The Handwriting Without Tears Workbooks and Teachers Guides were redesigned. They still contain all of the time tested tips but now also include the latest resources and strategies, lessons and activities needed to make teaching handwriting easier and more successful. The workbooks provide step by step letter formations, a developmental teaching sequence, self checking sections, more practice pages and new activities combining handwriting instruction with other language arts lessons. Additionally, there are now individual teachers guides for each grade with lesson plans for each page of the workbooks, teaching guidelines by day and week, tips for succeeding on all styles of paper and strategies for identifying and remediating problems.

Visual Perception

"These games involve varying levels of visual-perceptual skills along with some degree of motor control. For many, the motor component may be eliminated. Some of the skills addressed include: matching, directionality, spatial relations, visual attending, memory and discrimination, scanning and tracking, sequencing, organization, classification, visual planning and critical thinking. These games may also be played on the floor or mat allowing for alternate positioning."

SPOT IT

Truly amazing and wonderfully challenging game of visual discrimination and focus. You get a travel tin full of cards, each filled with colorful, appealing images. The object of the game is to be the first to spot the one and only one matching symbol between any 2 cards. A sharp eye and a bit of speed is all you need to become a Spot It Master!

V2310 \$11.95

Q BITS

A beautifully crafted game of visual dexterity. Players puzzle over how to recreate the patterns on the game cards using their set of 16, two color, half inch cubes. Comes with 120 pattern cards and enough pieces for 4 players. Or save some money and split materials so each teacher/therapist has 2 sets of cubes and 60 cards. Play "head to head", individually or as a fast-faced 3 round competition. A great visual perceptual tool you will reach for again and again!

FINDERS KEEPERS

Terrific game where even 4 year olds can exercise their visual scanning, figure ground and visual, discrimination skills. Be the first to locate all your "find me" objects hiding among your "keep me" cards. Players need a sharp eye as objects may be partially hidden and you may have more than one match on a card. Great graphics are colorful, fun and motivating for all ages! **V5344 \$10.95**

IMAGINETS

Boost fine motor and visual thinking skills with these brightly colored magnetic blocks and 50 full-color design challenge cards. Make animals, vehicles, faces and more. The clasp closing wooden carry case with handle opens to reveal 2 separate magnetic boards which can also be used as dry-erase boards. Great take along travel toy for 1 or 2 users. **V9559 \$24.95**

EARLY VISUAL SKILLS

The 48 reproducible worksheets in this book are designed to provide young learners (K-1) with a fun motivating way to develop visual skills. The worksheets are bold, uncluttered and visually appealing. They contain instructions in graphic form requiring less support from adults, fostering independent work habits. Areas addressed include figure ground skills, visual discrimination, same/different, position in space, part to whole, size sequencing and directionality. Fine motor skill development is also addressed through the continued practice of coloring, drawing, cutting and pasting. A terrific activity book, that parents, teachers and therapists will reach for again and again. **V0001 \$6.95**

PAPA BEAR

Little Bear just cannot seem to get on the correct color clothes. So Papa Bear tells him, via the direction cards, what to switch. Players have to scan the cards and for example, find the one of Little Bear with the same color coat, but boots and hat colors need to switch. A fun for all ages card game to build visual perception quick, logical thinking, ocular motor skills and ability to visualize, organize and retain information in your head. **V2379 \$9.95**

BLOCK BUDDIES

Take block building to a different level with these 21 brightly colored, beautifully crafted chunky wooden blocks. The variety of shapes allows the replication of 76 designs in four levels of difficulty. Perfect for "on stomach" play as designs are copied flat but have fun and create your own vertical structures as well. Block Buddies lets young and old alike experience the delights of building with blocks! **V9560 \$24.95**

QWIRKLE

Mix together the best qualities of games like Scrabble® Dominoes® and Set® and you've got Qwirkle! The 108 attractive wood tiles come in 6 colors and 6 shapes and players work at creating rows and columns of matching shapes or colors. Helps to improve visual perception, strategy, visual processing and analysis, concentration and other critical thinking skills. The simple level of play even lets younger players take on their older siblings or parents. For 2 to 4 players.

PARTS OF THE WHOLE

Similar in design to Making Shapes 1 and 2 but with an additional and more challenging layering component. The 4 master boards each are printed with 3 complete designs which must be reconstructed in the space provided

using 3 overlay cards in the correct sequence. Place them in the wrong order and colors or design elements might be covered up. Provides a real visual perceptual workout while facilitating attention to detail, the processing of large amounts of visual information and form consistency. **V3689 \$27.95**

JUMBO GEO-DESIGN CUBES

Set includes 16 larger sized plastic cubes with silk screened red, yellow and/or blue triangles or squares on all 6 sides. Twelve pattern cards show designs in 2 or 3 dimensional representations, some with individual block outlines and some without. Or, make up your own simple to complex designs. All stores in plastic tray with lid. Great for developing spatial awareness, visual perception and attention to detail. Work on in-hand manipulation skills by challenging players to rotate blocks held in only one hand, no help from support services. **V1746 \$27.95**

COLORAMA

Classic color and shape matching game is very versatile. Play can be as simple as matching correct shapes to their form fitting spaces on the board. For greater challenge, match the color and the shape. For still more challenge, use the color and shape dice to determine which colored shape to remove or add. Want more of a challenge, add a time component. Other game variations provided. Comes with 40 plastic pieces in 4 colors and 5 shapes, one color and one shape die and playboard with 40 color coded recessed fields into which the shapes are placed. This helps keep pieces in place when jostled due to in-coordination. **V4712 \$20.95**

VISUAL PERCEPTUAL SKILL BUILDING

These books each offer over 180 pages of quick, engaging visual exercises specifically designed for students with shortened attention spans. The activities build visual, motor and higher-order thinking skills by improving a student's recognition of letters, words, numbers and similar/dissimilar objects

as well as their sequencing and visual memory skills. Each book covers many progressively challenging skill sections including visual discrimination, figure ground, closure, form consistency, memory, spatial relationships and visual motor. No reading is required to respond to the activities and the answers are provided in the back of the book. Additionally, there is an informative introduction, a definition of terms list and pre- and post-test to help evaluate skill level. **V9561 Book 1 \$24.95**

TANGOES JR.

This is the updated, user friendly version of the ancient Chinese tangram puzzle. Comes with the 7 classic shapes in large, easy to manipulate magnetic pieces. For beginners, simply place the level 1 side of a puzzle card on the magnetic playing surface and fit the pieces in place as indicated. Those ready for a bigger challenge would place the level 2 side of the card on the board. This only shows a full silhouette of the total shape with no outlines of the individual pieces. Great for travel or therapy bags, as all the pieces and the 12 double sided cards store inside the plastic case. A terrific way to build visual perceptual skills, along with spatial cognitive abilities. Perfect for young and old and everyone in between.

V5541 \$24.95

TANGOES JR.: ADDITIONAL PUZZLE PACK

SETS

A very versatile and unusual deck of cards and a must for every classroom and therapy bag. The deck includes 81 cards. Each has either 1, 2, or 3 symbols on it. The symbols are either ovals, squiggles, or diamonds; either red, green, or purple, and either solid, striped, or open outlined. The original game calls for players to find SETS - 3 cards that have 3 attributes in common (i.e. all open, red, or go in number sequence). But these cards can also be used for sorting by 1 or more attributes. The uses are unlimited!

A SENSE OF DIRECTION

BY LAURA SENA OTR/L

An amazingly comprehensive book of activities to help children build functional directional skills. The book contains 42 high interest activities and explains what you do, why you do it, how you do it and what to look for while you are doing it. Also provides a review of the developmental components leading to directional skills, pre and post tests, goals and objectives and a glossary of terms. Activities organized into 4 levels; 1. Body Awareness, 2. Self as a Reference Point, 3. Environment as a Reference Point, 4. Others as a Reference Point. This book is a must have resource for all those seeking to help clients who struggle with directional confusion.

V6613 \$59.95

BLINK

A lightning fast game where 2 players race to be the first to lay down all of their cards. Using sharp eyes and fast hands, players quickly try to match the shape, count or color on the top cards with a card from their hand. A great, fun way to rev up sleepy bodies and brains. Try playing a hand or two before an important lesson or starting homework.

V6886 \$9.95

EQUILIBRIO

A challenging game of ingenuity, fine motor skills, and block balancing tasks. Using the precisely crafted Architect precision blocks, players erect structures illustrated in the challenge book. As players progress through the book, the structures become more complex and difficult to balance. Success requires the use of trunk and shoulder stability, along with bilateral coordination, problem solving, and perseverance. Not for the faint at heart!

V4586 \$34.95

I SPY EAGLE EYE

"Find a picture with your eyes, ring the bell and play eye spy!" That's the concept behind this visually enticing game of figure ground and object identification skills. Find the objects on the game board that matches an object on your card and be the first to ring the bell. Each card and board has only one matching item. Includes 4 double sided boards and 30 double sided cards. The bottom of each board also lists additional things to find. Visual fun for the whole family!

V8891 \$20.95

SPACE FACES

It's a race to be the first to identify and rescue one of the 120 aliens pictured on the board. Each shake of the Alien Identification Device indicates a different alien by the color of his eyes, nose and skin. First player to find this missing alien gets to place a purple alien chip in his rescue vehicle. Five rescues and you're a winner! As no 2 faces are the same, players work to sharpen their visual discrimination and concentration skills while improving attention to detail. Kids like the game so much it makes a great reward/reinforcer.

V3542 \$34.95

EYE CATCHER

Watch the brain and eyes work together as players try to place the colorful game tiles on the matching spaces on the game board. Race the timer to see how many points you score and how you rank on The Rating Scale. Looks deceptively simple, but looks can be deceiving. Use as a 2 to 6 player game or as an independent challenge for one person.

V1318 \$14.95

CATCH THE MATCH

These heavy cardboard playing boards are so busy with pictures and colors, they could make you dizzy! But that's part of the fun! Each of the 16 boards have exactly the same objects, just in different color combinations and in different locations or orientations. The trick is to find the one item on each board exactly the same in color. The identical item changes for each two boards. The person to find the match wins that board. Collect the most boards to win. For younger children use cards to facilitate language and to work on figure ground skills. Play individually or in a group.

V2304 \$9.95

HIDE & SEEK BUGS

A lotto type game reinforcing visual memory and figure ground skills. Each player has a brightly colored board totally covered with pictures of real flowers. Hidden among the leaves and petals are 6 bugs. Object of game is to be the first to match the large plastic bug tiles with the bugs on your board. Two levels of play for greater versatility. All materials, flowers and bugs, are actual photographs making this a delightfully appropriate game for children and adults, especially those who love gardening.

V0116 \$14.95

I SPY SILHOUETTE

A great new game of visual exploration and matching from the I Spy™ people. Search the 24 colorful, richly detailed picture cards on the table till you find the one that matches completely the detail-less silhouette card in your hand. Player with the most matches wins! Helps build visual discrimination, form constancy and ocular motor skills as well as attending, visualization and critical thinking.

V8817 \$16.95

BASIC TANGO PUZZLE SET

A versatile perceptual motor activity set. The boxed set includes 2 sets of 7 plastic Tango playing pieces in two colors and 54 puzzles to solve (answers are provided). All self contained in a plastic storage case. It was originally designed to be a race challenge between two players, but it can do so much more! Copy the answer card for basic design copying; have the client copy a design you create, use all the pieces or a few; or trace the shapes then color.

V5566 \$11.95

PARQUETRY BLOCKS & CARDS

Classic set of 32 wood parquetry blocks in 6 brilliant colors and 3 shapes. Use the 20 included design cards inside the work tray or next to it for an increased visual challenge. If you are up for it, try fitting all the blocks into tray on your own, without copying a pattern. So inviting kids readily work on their design copy, spatial relations, and visual perceptual skills.

POPPO

Poppo was designed as an educational game and that is just what it is - but it is also an exciting fast paced, pop till you drop good time! Players race to spell 3 or 4 letter words picked from the 100 colorfully illustrated picture and word cards. Pop your poppers, (4 to a person/team), until all the letters you need for your word appear. Arrange them in the correct order and if you are the first to shout "Poppo" you get the card. Collect the most cards and win. Everyone has fun working on their matching, visual memory, letter recognition, and sorting and grouping skills when you play Poppo!

V4350 \$24.95

RONA'S DESIGN COPY

Comprehensive collection of 72 graded, dot to dot designs divided into 4 levels of difficulty. Beginner and Intermediate levels involve 4, 6 and 9 dot grids with designs that are to be copied into empty grids right next to the printed design. The Advanced level involves more complex, 16 dot grids and design must be copied onto a separate board. The Expert or Black Diamond designs are most difficult. These designs show only the dots that were used in making the design. The rest of the dots comprising the grid are missing. This makes it much more difficult to orient spatially where and how the design fits and on to what size grid it should be drawn... Housed in an easy access ring binder, 2 or 3 students could work on different designs at one time. All pages are laminated and meant to be used with write and wipe markers or crayons.

LIGRETTO DICE

You'll feel the need for speed when you play this fast paced, dice rolling board game! All players roll their six randomly picked dice at the same time and try to place them on the game board in number and color order. If the red 3 is not yet down then the red 4 can not be placed. Players keep rolling until the first to get rid of all their dice calls out "Ligretto" and is the winner. Exciting game for 2-4 players, reinforcing color and number recognition, sequencing, visual scanning and attending along with response speed.

V2375 \$14.95

SUPER CIRCLES

The brightly colored rings on these cards are mesmerizing but players need to focus and to work quickly to match a colored ring on one of their cards to a ring on the previously played card. Sounds easy, but with all players going at the same time, only the quickest eyes are fastest hands will win. Play as solitaire or take turns to slow the game down. Comes in handy storage tin. **V6883 \$9.95**

HOPPERS

This great peg solitaire jumping game helps develop visualization skills, step by step thinking, directionality, spatial relations and fine motor control. Comes with 40 pattern cards, 12 frogs and 4"x4" play tray, which slides back revealing storage space for all pieces. Play by placing frogs on pond as shown on cards. Then start jumping until only one is left. Lots of fun for many levels of players. Somewhat less challenging than Hi-Q. **V2675 \$12.95**

STARE JR.

It's easy to see why children and adults love to play this habit forming game visual memory, attention to detail, language building and imagery. Players take turns staring at the visually stimulating, kid friendly images on the 160 game cards. When the 30 second timer runs out, the card is turned over and they are asked a number of questions about the image from the back of the card, i.e. what color is the girl's hat?; which teddy bear is tallest??. Pieces move around the board based on the number of questions answered correctly. This is a challenge kids cannot resist and you don't want them to!

V1314 \$23.95

KLUTZ MAZE BOOK

An amazing collection of visually appealing and intriguing mazes. Use a finger or pencil eraser because you'll want to keep these to do over and over again. Some are easier than others, all are bright and very different than those you usually see. For example, follow schools of tropical fish; climb ladders through a forest; flow down a river of lava or use the special little tool included to jump from hole to hole. If you want different and motivating-you want this book!

V6060 \$12.95

ROCK

Sharpen your visual processing and verbal skills with Rock!

Using the traditional rules of Rock, Paper, Scissor, players flip over cards

and race to be the first to name the winning card. And as each card has a different representation of a rock, paper or scissor there is a lot of "brain tripping" information to process. Comes in a handy, take anywhere travel tin.

V6868 \$9.95

I SPY SNAP

A fast paced card game where you try to accumulate the most cards. Deck contains 48 jumbo cards in 12 sets of 4. Each card in a set shows a central item with differing backgrounds. As players turn over their cards, the first to spy a match calls out the name of the object and takes those two piles. Play can be easily adapted using these versatile cards. Great ocular/perceptual workout.

V8833 \$6.95

BINGO LINK

A visually dazzling game with simple rules and intriguing materials. The object is to be the first player to link

2 sides of the 6 sided board with an unbroken path of 6 sided markers. Players take turns calling out and marking off objects that will help them complete their path. But all boards have the same objects just in different places. So be careful what you name, you don't want to help another player win. Comes with 4 boards, each with 61 honey-combed shaped spaces and 80 markers. Adapt for younger children by simply calling out a specific object for them to find and cover. Great game for developing figure ground, visual scanning, sequential thinking and beginning strategy skills.

V5346 \$15.95

THAT A WAY

Everyone plays this quick moving card game at the same time. First one to follow their direction cards correctly, building a path to the escaped gorilla, wins that round. Directions include up/down/right/left. But when you are trying to go fast, it's easy to get confused! A

great reinforcer of right/left awareness. Which way did she go? She went thataway!

V5340 \$6.50

SHOPPING LIST

A terrific visual memory game where players work to be the first to fill their grocery cart by finding all the items on their shopping list. Plays like a combination of Concentration and Bingo. Shopping list has pictures as well as words so no reading necessary to play. Also, perfect for reinforcing healthy eating.

V5034 \$13.95

SPATIAL ORIENTATION GAME

Engaging game for developing spatial skills and reinforcing basic directional concepts of inside, next to, before, after, below and above. Players, ages 3+ spin one spinner to identify the object and other spinner to identify the position of the object. They must then find the one card out of 24 that shows their item in the correct position. Player who collects the most cards, wins. Or play even simpler version with child finding only their object in any position or only their position held by any object and not the two combined. Great visual workout for young children with lots of opportunity to encourage attention to detail and expressive language skills.

MIND YOUR MANNERS

A must have for teachers, parents, therapists, caregivers or anyone concerned about Character Education. Tin storage box contains 40, 6 x 5 inch illustrated cards depicting an improper behavior on one side and the correct behavior on the reverse side. The cards provide a wonderful opportunity for adults and children, even young children to communicate and begin discussing the situations illustrated. Verbal communication skills improve while children learn to distinguish between correct and incorrect behavior. **L5905 \$11.95**

NEAR AND FAR

A unique 3-D game for working on spatial concepts and directionality. Comes with design cards of increasing difficulty, colorful and sturdy cardboard pieces and a slotted base. The object of play is to copy the design card, placing all the components in the correct orientation and in proper perspective to each other. Direction following and auditory processing skills can also be worked on by verbally describing a scene for re-creation, i.e.: "put the cow behind the fence but in front of the tree." Additionally, children will enjoy making up their own stories using the pieces. **L8932 \$18.95**

ALPHABET SOUP SORTERS

An amazingly useful set of 26, three inch, heavy duty cardboard cans with removable lids. Each can is labeled with a letter of the alphabet and contains an upper and lower case letter and 6 real life images of items starting with that letter. Perfect for learning the alphabet and reinforcing beginning sounds. Kids love stacking the cans and finding other small items to add to the collections. **L6081 \$48.95**

DR. SEUSS' SPEEDY DINER

Fast paced game where players try to deliver each customers food as fast as the chef can call out their orders. Game area can be set up to cover a table, a room or even a whole house. So, if Mr. Fox is in the kitchen and wants blue bananas and Mr. Goat is in the living room and wants purple pizza, the waiters must hurry to cover the space. The faster you go the more coins you get. At the end of each round, the musical menu will show you the correct foods each customer should have on their plate, will announce how fast you were in getting them their food and will tell you how many coins you get... so listen carefully! A really fun game where kids think they are having a good time but really they are working on their listening, auditory memory and visual figure ground skills along with response speed and endurance. Batteries required. **L1010 \$19.95**

Q-CHARM

Q-Charm is a uniquely simple, functionally superior and less labor intensive cueing system for children with Autism. The ready to use yellow bands and single picture icons eliminate the need to cut, laminate or velcro pictures. A child's daily schedule of tasks can now be worn on their wrist, always at hand for caregivers and readily within the child's visual field. The star charms can be added immediately as reinforcement for completing a task or modeling the appropriate behavior. Cueing the child back to the task at hand or to the number of stars already earned, is quick and easy. And as Q-Charm travels with the child's body, it is always available, whether at school, home or in the community. Keychain version is available if child is resistive to wearing wristband. Attach to wheelchair, beltloop, etc. **L2670 \$42.95**

SAID AND DONE

When all is "Said and Done", this is truly an original activity! One player acts as the instructor each turn and selects a design card.

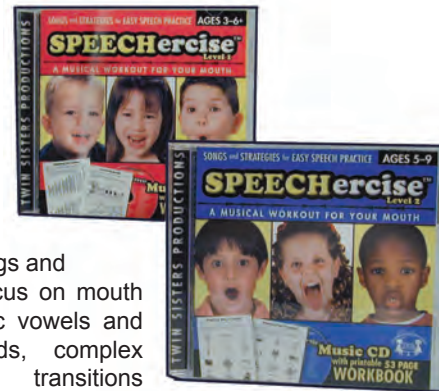

The object of the game is for the other players to determine which design was chosen. To help the process along the instructor gives verbal directions using predetermined reference points, i.e. "draw a vertical line from the blue magnet to the yellow magnet." Following a series of these types of instructions a reasonable copy of the design card should be visible on the dry erase board and the object drawn can be named. But only if communication has been clear and listening has been careful. A wonderfully, effective way to reinforce and exercise the skills of careful speaking and listening.

WHERE IS IT?

There is more than one way to play this lotto game, but all are designed to help children with directionality and spatial relations. The 4 game boards and 27 picture cards all use a dog, his dog house, trees and playground to illustrate 24 different positional terms. Terms include under/over, in/out, behind/in front, around/through, etc. A fun way to introduce or reinforce a difficult skill area.

V4450 \$15.95

POSITIONS GAME

Reinforce a child's understanding of spatial terminology and positioning with the 36 tiles depicting four entertaining characters in 9 different positions. Can you find all the "in front of", "behind" "next to" and "between pictures, to name just a few. Play as an activity or a game for up to 4 players.

L5912 \$9.95

**MAGNETIC
HABITATS SET**

Set comes with a sturdy 14" x 12" magnet board, 26 colorful wooden magnetic play pieces, and 3 scenic habitat cards, (ocean, farm, African plains). Simply slide a habitat into the frame, sort out the appropriate animals and start playing. Encourage children to make up stories or try giving them verbal directions regarding their magnet friends, ie "put the rhino on top of the hill and the alligator in the water", or try setting up a scene, show it to the child for 5 seconds then alter the scene. Ask the child to tell you what changed. Great for improving expressive and receptive language skills, auditory processing, visual and auditory memory, pretend play or just have fun!

Critical Thinking

"Items in this section all focus on building ones ability to analyze, organize, classify, and then generalize information so meaningful conclusions can be drawn."

ANIMAL MASTERMIND TOWERS

This fun new game of deduction is really a simpler, less intimidating version of Mastermind®. Both players secretly stack their animal tiles in their towers.

The object is for you to figure out what order your opponent put his animals in before he guesses yours. You do this by asking yes/no questions regarding positions, i.e. "Is the lion below the giraffe?" "Is the penguin at the top?" First player to arrive at the correct order, wins! Perfect for ages 6+ but with younger children try using less pieces. Great game for improving logic, deductive reasoning, and language skills.

R2944 \$11.95

SIMON - MINI

A true classic! This colorful, fast paced electronic game of memory is back. Try to repeat the ever-increasing sequences of lights and sounds by depressing the appropriate section at the appropriate time. Challenging and addictive

then... challenging and addictive now. But now, with the small size and carabiner keychain modification, you can take it everywhere attached to book bags, belt loops, etc.

R2511 \$9.95

MAP IT

Developed by an OT highly experienced in the area of learning disabilities, this activity focuses on improving spatial relations, directionality, encoding

of visual information and map reading skills. Game begins with player standing in the "start" position on the 5'x5' mat. They are given a map and must follow the route marked, walking on and/or between, the 4"x4" squares and finally ending up in the correct location. Comes with one mat and 15+ maps, progressing from simple to complex. Sometimes, it's a real challenge for any of us to end up where we are supposed to be! So don't get lost, play MapIt!

R5017 \$25.95

CHOCOLATE FIX

Players of all ages and skill levels are challenged to arrange the 9 chocolate candies into their correct positions. This is

done based on the players interpretation of the spatial/ positional clues provided on the 40 challenge cards. Puzzles progress from beginner to expert levels and along the way players sharpen their critical thinking, sequencing and visual problem solving skills. Similar game play to our Clever Castle (R2678), but more advanced. A terrific way to engage your brain no matter what the age!

R5733 \$17.95

CLEVER CASTLE

Clever game, that puts everyone in their place. Plays as a simpler version of our long popular Meta-Forms™ game. Each of the 3 characters come in 3 colors. Players must determine where the 9 guests of the castle belong based on the picture clues provided on each challenge card. 40 challenge cards, from easy to super hard, help players 5 years and older build their problem solving, critical thinking, information processing and deductive reasoning skills. Come with a parent guide and draw string bag.

R2678 \$17.95

THREE OF A CRIME

A great game of deduction for all the arm-chair detectives out there! You will need keen eyes and quick thinking to interpret the feedback and figure out which 3 masterminds actually committed the crime. Plays in 15 min, for 2-6 players ages 8-100.

R2377 \$11.95

THINKING SKILLS (PRESCHOOL)

A full color workbook with 32 exercises focusing on essential preschool skills. The richly colored, child-friendly illustrations motivate children to practice organizing information, classifying, sequencing, completing picture categories and solving logic puzzles. Try placing the worksheet in a clear acetate pocket so it can be used repeatedly.

R9754 \$2.95

Critical Thinking

TRI-SPY

A fast paced game challenging players to think, look and react quickly as they attempt to spot matching patterns. Players, on their turn, can move only one of the 8 wooden tokens to any open space on the board. They do so, attempting to recreate a pattern displayed on one of the 12 cards spread around the board. If a pattern is matched, player takes that card and replaces it with another. Person with the most cards wins! Tri-Spy is the ultimate visual spatial challenge that promotes concentration, pattern recognition, visualization and problem solving. 1-6 players, 7+ yrs.

R5312 \$14.95

BUZZZZZ....

This colorful card game will have young and old straining their brains and their eyes! At first glance, every card looks the same but on closer inspection you will see the variations. Each of the 91 cards feature 1 of 3 different patterns of balloon stripes, combination of animals or different shaped baskets in 3 different colors. Players work at identifying a series of 3 cards featuring all 3 variations of one of the key attributes and then be the first to press the Buzzzzzz! If you are correct, you get the card. If you are wrong, you must give up 3 cards. Identify the most 3 card series, collect the most cards and you win! Great game helping to improve visual scanning, discrimination and memory along with attention to detail and response speed.

R8050 \$14.95

MY FIRST SUDOKU

A most awesome game for younger children or those taking their first steps down the Sudoku road! My First Sudoku is a kinder, gentler version of the original starting with the use of a 4 x 4 board and progressing to a 6 x 6 instead of using the original 9 x 9. Additionally, the puzzles consist of simple colorful pictures of common objects or colorful shapes instead of focusing on numbers. The friendlier graphics and smaller playing boards make this an amazingly effective tool for developing logic, reasoning, and problem solving skills and for exercising visual discrimination, design copy, spatial organization and concentration skills. A must have game for home, school, or clinic!

R8081 \$17.95

MY FIRST BRAINBOX

Boost memory and concentration skills in just 10 seconds! That's how long you get to memorize as many details about a picture as you can. Players are then asked a question from the back of the card. ie. How many windows are in the room? What was on the table? The ABC version is even simpler with only 4 items on a card and each item having the same beginning sound. Comes with hundreds of simple, engaging pictures and a 10 second timer. Need more time?...use the timer twice. Fast paced games of concentration, attention to detail and visual memory for ages 4 and up.

R2717 My First Brainbox \$19.95

R2719 My ABC Brainbox \$19.95

UTOPIA

Unique, brainteaser puzzle where the challenge cards provide the hints but you provide the logic. The 50 cards are divided into 2 building phases. Phase 1, for ages 8 plus, plays a lot like Sudoku. You set up your buildings as shown on the card and must fill in the empty building pads so that no row or column has 2 of the same buildings. Additional hints regarding lines of sight provide all the information you need. Phase 2 is more challenging and will have teens and adults scratching their heads. So grab your hard hats and start building those critical thinking skills!

R3310 \$19.95

Critical Thinking

RUSH HOUR JR.

A truly exciting puzzle game.

Comes with a 6"x 6" game grid, 16 plastic vehicles and 40 junior challenge cards. You start by duplicating the pattern of vehicles from the card onto the game grid. You then slide the vehicles along the grid until the ice cream truck can make it's way out of all the traffic. Fun perceptual and motor task stressing visualization and problem solving skills for first graders and older.

V2662 \$17.95

DOG DICE

Dog Dice combines the luck of bingo with good observation and visual scanning skills. Roll the dice; one indicates a specific dog and the other indicates what the dog is doing. Now scan your bingo board for a single square matching your throw of the dice. Do you have a picture of the poodle with you? Mark that square and hope you're the first to make bingo!

R3547 \$10.95

COIN CLUES

This workbook of 100 puzzles goes far in reinforcing coin values and identification along with strengthening problem solving skills. Just pop out the coins from the perforated pages, make sure your arrangement of coins meets the criteria given in the clues and you have solved puzzle one....only 99 more to go! Watch math and problem solving skills improve as students work their way through this workbook!

R9549 \$12.95

FOOT-PRINTS

Follow the footprints down the path for a gross-motor, motor-planning, sequencing and processing challenge. You get 10 circles to position on the floor and 12 footprint maps to follow. Put down on the floor as many circles as shown on your map. Players stand in the start position and perform the action as demonstrated by your maps footprints, i.e.; if both footprints are pictured inside the circle...jump so both of your feet land that way. If the map shows the right foot in a circle and the left one out, then you do the same. The footprint maps become more complex as you go with crossed, sideways and alternating patterns possible. If a player has trouble interpreting how to do what the footprints show, let them follow someone else through the path. Where will the footprints lead you...?

M5019 \$24.95

MONKEY MEMORY

A quick thinking logical memory game! The monkeys have taken a total of 10 items from the visitors at the zoo. But in each round of play all but one of the items is recovered. You need sharp eyes, fast thinking and good visual memory to be the first to determine what item is still missing. Make game easier or harder by adjusting the number of items in play and by allowing use of the object prompt cards or not. For 2-8 players, 5 to adult.

R2373 \$9.95

KANOODLE-LONPOS

The fun colors and shapes of this take anywhere puzzle game with the built in game boards, draws in everyone! The 101 puzzles start out as a simple design copy task. Players place pieces on the 3" x 5" recessed and dimpled playing areas as shown in the 48 page design book. Beginning puzzles leave out only one piece that players must fit into the remaining recesses. As you progress the exact location of more and more pieces are not provided and so more and more puzzle must be solved. After all the rectangular puzzles are solved try the 3-D pyramid puzzles, if you dare! Great for building on problem solving, spatial concepts, visual imagery and concentration skills.

R2755 \$12.95

SERPENTILES

Who knew problem solving could be so addictingly fun. All you have to do is create a continuous path that begins and ends in the same place. Challenge cards show players which squiggled, curved and straight tiles to work with...they have to figure out exactly how to line them

up. It's a simple concept that provides hours of mind stretching fun. Players from 8 to adult will improve their visual and spatial skills along with their conceptual thinking.

R2671 \$14.95

“These toys and materials encourage the child to originate, plan, initiate, sequence and implement a plan of action, thereby enhancing efficiency and organizational skills.”

JUMPZ

These active little guys have so much energy they can actually jump 10 times their own height...but at only 2 inches high, your ceilings are safe. To play you push down on their rubbery little heads until fully compressed, then launch 'em, watch 'em fly and try to catch 'em! Assortment of 12 different characters, sorry no choice. Fun arm, finger and visual workout.

M3326 each \$2.95

ROCKIN' B-BALL

Now everyone can “shoot for a hoop” with this addictive little 4 inch transparent orb. Play against the clock, head to head, best of 10, even “horse”. Every time you score a basket you're rewarded with flashing lights and cheers from the Cyber-audience. Now don't get too confident, it's not as easy as it looks. But with just the right flick of the wrist, you too can be a high scorer.

M8505 \$7.95

MEGA JUMPZ

Push'em, jump'em, fly'em! These soft foam heads with the woven plastic bodies, are not very pretty but they really do move! Larger, mega version of our original Jumpz can actually reach 15 times their own 4 inch height. With Mega Jump action, these big guys are even easier to catch than their little brothers but work the same way. Push down on their heads and launch them off a table, wall or out of your hand. Go for height or distance, go bowling and knock down paper cups, score a basket...etc. Mega Jumps are mega fun for the hands!

S3325 \$3.95

SMART STEP GAMES

These are both multi-award winning, get up and get moving games! While the mechanism of play is basically the same for both, the challenges and context in Animal Scramble is for younger children and Hyper Dash will be more appealing for older children, adolescents and adults. To play, you simply set out the targets, listen for the clues and cover the intended target with the tagger. Cover the first target and the tagger device will give you instructions for which target is next. Targets can be set up close together on a table top, scattered throughout a classroom or spread throughout a playground, house, or even a football field, for a more physically demanding challenge. Many levels of play to meet all needs. Physically and mentally engaging, both games promote listening, memory, endurance, and coordination skills. Great for family play, therapy clinics, after school programs, birthday parties, etc.

M2900 Animal Scramble \$34.95
Q2940 HyperDash \$34.95

WHOOOPS

Amazingly versatile game of balance and agility. Comes with 12 stepping stones numbered 1 – 12 and directions for playing a number of games as individuals or in teams. Basic concept is to step from stone to stone in a specified number order without touching the floor with any body part. In many games you must also pick up stones in number order while balancing on other stones. Easily adjusts for play by any age or skill level. Move stones closer or further apart, change rules as you need, or make up your own game. Stepping Stones are light and stack together for easy storage and transport. Parents, teachers, OT's and PT's all need this game!

Q4201 \$19.95

Motor Planning

FOOT-PRINTS

Follow the footprints down the path for a gross-motor, motor-planning, sequencing and processing challenge. You get 10 circles to position on the floor and 12 footprint maps to follow. Put down on the floor as many circles as shown on your map. Players stand in the start position and perform the action as demonstrated by your maps footprints, i.e.; if both footprints are pictured inside the circle...jump so both of your feet land that way. If the map shows the right foot in a circle and the left one out, then you do the same. The footprint maps become more complex as you go with crossed, sideways and alternating patterns possible. If a player has trouble interpreting how to do what the footprints show, let them follow someone else through the path. Where will the footprints lead you...?

M5019 \$24.95

STACKING CONSTRUCTION VEHICLES

These three solid wood construction vehicles can be taken apart and rebuilt again and again. The 3 chunky pieces, smooth rolling wheels and simple designs make them a favorite early construction toy for young boys and girls.

M1770 \$19.95

JUDE'S SILLY SHOELACE BOX

While the name is silly the shoe-tying method is anything but! But it is possibly the easiest, least frustrating, most foolproof method of learning to tie shoes we have ever encountered. Children ask if they can use the "silly box" you don't have to ask them. Comes with flat laces, travel box, shoe-tying template, and direction sheet. All you do is bring the markers and follow the directions. (Some assembly required.)

M7029 \$11.95

PAPER TOYS 1 & 2

Actual action toys that can be played with! These booklets, each contain detailed plans, including therapist hints, for making 6 different paper toys. Paper, scissors, stapler, and a few paper clips are the only materials required. Booklet 1 is simpler using only a few snips and folds. Booklet 2 has more complicated plans. Both are ideal for bilateral coordination, refined grasp and manipulation skills.

X6702 Paper Toys 1 \$4.95

X6703 Paper Toys 2 \$4.95

YOGA POSE COLORING BOOK

30 simple line drawings of yoga poses encourages children to color, learn, and practice their favorite Yoga moves. Complete pose instructions are included in back of book if there are

any questions. A delightfully non-threatening way to introduce yoga to young students. Yoga improves health and develops strength and flexibility. Yoga also benefits self-esteem and relieves stress.

M1131 \$9.95

YOGA BINGO

It's bingo with a yoga twist! Start by turning over a yoga card. Find that pose on your bingo board, correctly perform the pose, earn the card. Get 4 in a row and shout "yoga". Actual photographs of children holding poses are used making it easy to understand the positions. For 2-6 players; makes for a fun, successful group activity.

M1133 \$29.95

GEOBOARD FOR LITTLE KIDS

Box set comes with one plastic 5"x 5" geoboard, 8 colorful two-sided activity cards and over 400 rubberbands. Activity cards tell you and show you what shape you are to make and with how many rubberbands. There is also a playful, kid-friendly picture illustrating the shape. Pegs have a flat, overhanging head for safety. Great for facilitating fine motor skills, bilateral coordination, and visual motor skills.

M4063 \$15.95

RINGO FLAMINGO

Fun, interactive game where players launch life rings from their boats in the hopes of landing them around as many flamingos as they can. A steady hand, good eye and just the right amount of pressure will score the most. Or launch them hard and go for distance! Great way to work on mid-range control and adjusting of force to fit the task.

M6845 \$25.95

MAKE 'N BREAK

This terrific design copy and construction game will appeal to all! Comes with 10 same size rectangular wooden blocks in 10 different colors; deck of building cards and a timer. Collect points for all correct constructions completed within the time limit. Modify play by eliminating the timer and using only level 1 cards. Three card levels provides every one with a perceptual and motor challenge. Structures are copied in the vertical orientation increasing the motor and upper extremity demand. Great family game!

M4770 \$29.95

INFINITY LOOP

This way cool toy presents quite a challenge. The two colored, 13-in. plastic figure 8, opens and closes to form an infinity looping track. When opened and closed with smooth appropriately timed movements a ball placed in the track will keep on rolling. How long can you loop? Facilitates upper extremity stability, quick reflexes, concentration, balance, visual tracking and a good time!

M3531 \$14.95

VEHICLE MAZE PUZZLE

These sliding maze puzzles have become classics. Easy grip vehicles slide along on a slotted track cut into the puzzle. This allows the 9 vehicles to be moved around the board visiting all the different sites, even getting lost or misplaced! Try having the kids move the school bus to the gas station and the police car to the supermarket. A really terrific tool for working on hand skills, motor planning, language development and problem solving.

M7780 \$16.95

PATHFINDER

Explore the many trails of Pathfinder. Move the wooden beads over the bumps, around the curves, and down the straight a ways, to copy the 16 enclosed pattern cards or patterns of your own creation. Designed to be worked with in horizontal or vertical orientations and board can be placed on any of it's sides for increased variations. The 20 beads in 5 colors do not come out, so it's great for travel. Finely constructed of solid wood. Pathfinder challenges the skills of logical thinking, eye-hand coordination and visual tracking.

V4505 \$29.95

FULL SIZE PATHFINDER PATTERNS

Same 8 patterns that come with the game enlarged to match actual size of board. In full color with black and white outlines on reverse side to color and create your own patterns. Easier to follow than the small cards provided.

V4506 \$7.95

GEO-LASTIC ART

Hard wood, 12 inch square geoboard with 25 large, non-removable, plastic pegs. Comes with

wide elastic bands and pattern booklet. Very safe and user friendly board due to the large nailhead shaped pegs. Peg shape inhibits the unwanted "shooting" of bands off of pegs during manipulation. Geoboards are great for improving hand skills, bilateral control and perceptual skills. Can readily grade tasks from simple to very complex, so your entire caseload can interact with this item.

M4544 \$29.95

Motor Planning

BI-COLOR TRAINING SHOELACES

This great aid for teaching shoetying, actually has 2 colors on each lace! So when verbal directions or cues are given, it's clear which lace is needed. Includes one pair of thick laces (for easier handling) and a brief methods/instruction sheet. You might need several pair though - kids love the two colors and might not give them up!

X6770 \$4.50

STEP TO IT

This get up and go game will have you on your feet right from the start! First you get a number card and then you choose an object from the goal cards that you think you can reach in that number of steps, jumps or hops. Can you walk to the fridge in 9 steps or hop to something beginning with the letter "R" in 15? Reach your goal and win a point. Facilitates motor planning, coordination, coordination and cognitive skills. Great group activity.

M6843 \$11.95

MAKE A SOUND AND MOVE AROUND - CD

An exciting collection of 16 songs and activities to nurture coordination, speech, sensory integration and social skills. From the good and dedicated people at Pediatric Therapy Network, the accompanying "how to" booklet is filled with activity ideas and resources for parents and teachers. Toddlers and

young children of all levels of ability will be able to listen and learn with these engaging musical activities!

M3609 \$21.95

RACKET & DOINK

A "doink" is a cross between a badminton birdie and your mom's hair curlers. They have a crazy, springy, highly tactile feel and are fun. But best of all is the racket. Strung like a short tennis racket with a round head and padded hand grip. This lightweight racket is a perfect therapy tool. Use with balloons, beanbags or even "doinks".

M3945 Racket \$9.95
M3943 Doink \$5.95

JUGGLING SCARVES

Set includes 3 brightly colored chiffon scarves, which appear to float on air, making juggling easier to learn. Try just 1 or 2 scarves for developing timing, crossing midline and visual tracking. Then try adding the third!

M3701 \$5.50

SUPER STRETCH ABC

A great way to get kids up and stretching while also working on their auditory comprehension, direction following and beginning letter sound recognition. Five letter or picture coins are dropped into holes on

the board through a motivating, fun to operate mechanism. The other players, "the callers" then tell the "stretcher" who is standing on the alphabet mat, which body parts they should use to touch the letters/pictures. The "stretcher" scores points by touching as many of them as they are able at the same time! Make play simpler by requiring only 3 or 2 spots to be touched at the same time or maybe the touching occurs sequentially and not all at the same time. Fun, Dr Seuss themed game to reinforce listening skills and overall strength and motor coordination.

M1016 \$17.95

JUMP ROPE 8 FEET

What could be more basic or provide a better way to get kids moving than a simple jump rope. 8 feet long double braided rope in irresistible confetti colors swivels easily without kinking so no need for handle. Easily adjusts for smaller children. A very versatile piece of equipment for therapy bag or toy chest. Also use for tug of war, scooter board pull, knot making and unmaking practice, straight on the floor as something to jump over, in a circle for hopping or throwing into etc. There are so many uses you may need two!

M4976 \$5.50

Motor Planning

TAKE APART VEHICLE

A child's dream come true. A toy you're supposed to take apart again and again! Comes with many pieces for each 7" vehicle including interchangeable screw drivers, wrenches, and nuts and bolts. Tool use, hand skills, bilateral coordination and motor planning

skills are all reinforced with this highly motivating toy. *No drill included* (Assorted styles- 2 per order.)

M2722 \$24.95

SUPER SKIPPER

Kids challenge themselves to jump, jump, jump to the music and make it over the two telescoping poles as they revolve around the base unit. Miss a jump and the poles become unbalanced creating some sad sounds. Three speeds and an acceleration mode keep everyone jumping. Works great with two kids jumping at the same time or as a party game. Builds timing, motor planning, and endurance. 4 C batteries required; telescoping poles fold up for easy transportation and storage.

M0556 \$31.95

GO APE!

Everyone will go bananas over this card game that puts a motor twist on the classic "Go Fish". Instead of verbally asking other players for a specific card, you act out what the funny monkey is doing. So you might wink, or stick out your tongue or pull on your ears, etc. Collect the most monkey matches and you're the winner. Motor planning fun for ages 4 and up. Comes in reusable plastic case.

M2575 \$4.95

COUNTING BALL

The Counting Ball is the wonderfully useful pairing of electronics with the classic, low tech, plaything...a ball. Slightly larger than a softball, this foam sided ball actually keeps track of the number of hits up to 100 it takes. Try bouncing off of knees, rackets, paddles, hands or walls. Provides great motivation for players to try and "beat" their last score.

Q3480 \$16.95

WOBBLE DECK

It looks like a balance board but oh it's so much more! The sturdy wood board has 5 different colored points each printed with a different number

(1-5) and a musical instrument. Stand on board and try to follow the instructions in the time allotted. For Level 1 you must control the board so that only the instructed color hits the floor each time. Level 2 presents instructions using either the color or number. For level 3 you are given either the color, number or sound made by the instrument. Requires a lot of auditory processing and quick balance responses. Program counts number of correct responses but best of all, you can also use it on table top with hands to control the movement of the board. Use indoors or out to improve balance, coordination, reflexes, mental focus and auditory processing.

M5960 \$45.95

CHARADES FOR KIDS

Classic game made simpler and less threatening for children. Comes with board and game pieces for six players but the best parts are the 150 cards with over 450 charades. One charade on each card is in picture form for nonreaders. Fun motivating way to work on motor planning, imagination and pretend play in a group, whole classroom or individual setting.

M4510 \$14.95

Bilateral Motor Coordination

"The skilled and coordinated use of two hands/arms/sides of the body at the same time is encouraged and developed as your child plays with and practices these activities."

CHOPPER SQUADRON

Great bilateral motor activity where one hand holds the power base the other hand pulls the power launcher... sending one of 4 small plastic helicopters flying and/or spinning away! Also great for working on arm strength, visual tracking and reflex inhibition.

B1872 \$4.95

ORBO

Orbo, the snap and match puzzle ball! Baseball sized orb comes with 13 holes, 12 of which have different colored balls resting in them. Players must push the balls out of one hole and get it to "snap" into another hole. This continues until all the balls are resting in the hole ringed in the same color. One hole is unringed and will remain empty. When complete, mix it up and do it again! Hands, eyes, patience and planning all get a real work out with colorful little Orbo.

B3312 \$9.95

ZOOMBALL WITH FOAM CUSHIONS

Larger and longer version of the classic Zipper. This ball is 7 inches long and travels back and forth along an 18 foot length of rope. To reduce fear and force associated with any incoming balls hitting handles, small foam balls can be threaded onto each line acting as a bumper between the easy grip handles and the propelled ball. This tricky therapeutic piece of equipment provides a total body workout. Great for adults as well as children.

B2458 \$15.95

FACE FLY BEANBAGS

These flying beanbags are made from brightly colored durable nylon scarves. Little hands can readily grasp and throw the lightweight bean bag "head" or the flowing tails. Throw for distance, aim at a target, spin one, spin two, pass them in circle, play catch with a partner or by yourself, juggle, etc. Endless play possibilities with this set of 6 in 6 different colors.

Q5031 \$17.95

PURPLINKER

The Purplinker capitalizes on the perennial fun generations of kids have had playing with an old-fashioned carpenter's ruler. Follow the patterns provided to create capital letters from A-Z, numbers 0-9, and a multitude of simple to complex shapes. Play as a typical design copy activity or accept the additional challenge of folding the Linker arms so the correct number of holes on each arm is visible. If the number of holes in your shape is different than the number of holes on the pattern, then you must refold the shape. A wonderfully compact, take along tool that challenges visual and motor skills while helping develop motor planning activities.

B8929 \$11.95

TUBATION

Fun, successful, early construction set of 40 colored unbreakable ABS plastic tubes. Four "pipe like" shapes readily fit together encouraging creations both big and small! Almost as much fun to take apart as to build. Comes in a great box with take along handle.

B0532 \$19.95

MINI SUPER SPORT DISK

Hey, these rackets are round, is that right? Well, when it comes to Mini Super Sport Disks, round is right and beautiful as well! Hand-somely designed 12 in. diameter rackets with a super stretchy but durable elastic center and foam rim. Hold the rim with one or both hands to catch, bounce or shoot a ball over 100 ft. Comes in a set of 2 rackets with one ball. Can be used with almost any type ball but water balloons and koosh balls work very well. Try using the Sport Disk to play modified volleyball, tennis or baseball. Go for distance or accuracy. Throw it, catch it like a frisbee; great beach toy, it floats! Lightweight material and large "sweet spot" on net makes this a very successful racket.

M6676 \$25.95

Bilateral Motor Coordination

INTERLOX

Build, design, create with these 2 inch square translucent panels in 5 beautiful colors. No hardware or other materials needed. Simply line up the slots in the edges of 2 pieces and push together. Create buildings,

robots or stained glass-like pieces of modern art. Some design ideas provided on packaging. 96 pieces provide a great bilateral, fine motor and motor planning workout. Some builders find the perpendicular positioning of the panels challenging both physically and perceptually.

B2389 \$15.95

BLOCO BUILDING SET

The models you create with Bloco are all amazing! Whether you follow one of the patterns or create something of your own design, your efforts will be rewarded. Colorful pieces of high density foam are held together with plastic figure eight shaped connectors. Instruction sheet breaks

down the large constructions so they are built section by section. Quantity of each part needed for that section is provided to help with organization. Presenting the directions in this manner allows even younger children to successfully build. The finished products are truly awesome providing each builder with a satisfying "I did that" moment. A wonderful way for children and adults to work on visual perception and fine motor skills.

B1325 Dragons & Reptiles \$27.95

WOODEN STRINGING BEAD SET

This set consists of over 200 quality 1/2" wooden beads and 8 colorful laces packed in a sectioned wooden tray with slide on Plexi-glass cover. The uppercase letter beads are natural wood while the shapes are colorfully painted. Multiples of each letter are provided to allow more than one player at

a time. A visually exciting product for all ages. Facilitates fine motor control, bilateral coordination, sequencing, letter recognition, spelling, design copy and more!

B1762 \$16.95

FUN SPECIALTY STRINGING BEADS

Bored with your standard beads? Add life, color and pizzazz to a classic developmental activity with this new set. At approximately 1 inch, these brightly colored, high quality plastic beads are a good, challenging size for hands. Set includes 48 beads, 12 in each of 4 categories: transportation, safari animals, marine life; pets, and 100 multi-colored pony beads for use as spacers. Great for stringing, sorting, patterns, in-hand manipulation, tool use and classifying. The possibilities are endless. A perfect pairing with our handy bead stick!

B9922 \$4.95

MANUSCRIPT STRINGING LETTERS

Beading fun with letters! These 3/4" capital letters are 3-dimensional, so you can feel all the bumps and curves. Each letter has a hole through its side. This allows the laced letters to hang unobstructed in correct reading orientation. Set includes 288 pieces in primary colored plastic – so there's lots to share. Try standing letters on a tabletop, push into clay or sort by color or shape using our new tweezers or other hand tools. (Laces not included).

B4112 Uppercase Letters \$12.95

B4189 Lowercase Letters \$12.95

LONG TIP LACES SET

You can never have enough laces! These are 36 inches long and have an extra long plastic tip for greater success. You get 2 in a set so make sure you have some with all of your lacing materials.

B4033 \$1.50

LACING NEEDLES

Get a set of 5, blunt -ended plastic needles to use for all your lacing needs. The 3" long needle provides greater stability and so increased lacing success.

B4134 (set of 5) \$2.95

BEAD STICK

A most versatile piece of equipment. Hold the dowel at the end cap and place beads over the tip. Bead stringing now becomes an activity for young and old. Great for bilateral coordination, range of motion, upper extremity stability and in-hand manipulation. Can be easier to work with than floppy laces. Will work with most size beads.

B6711 (set of 2) \$4.99

Bilateral Motor Coordination

THE ZIPPER

Classic two player toy for developing bilateral coordination, team work, timing, arm and hand strength and endurance. Soft 5" ball with approximately 7 feet of string. Smaller size makes it easier for indoor use and for fitting in therapy bags.

B6905 \$9.95

JAW BONES

Build a model or create a piece of art with this new construction system. Each storage jar is filled with 100 brightly colored plastic pieces that have been carefully researched and engineered to fit together securely while providing the most fun, functional and versatile connections. Pieces ratchet, swivel and snap together in countless ways providing hours of fine motor, bilateral and motor planning play. Instruction booklet with 14 detailed project plans is included.

B5611 \$19.95

PFOT "CUT-AWAYS" Fastening Aids

The best training aid around. More functional than dressing toys, "cut-aways" allows you to actually practice buttoning and zipping anytime anywhere. With velcro collar and waistband and no back panel, "cut-aways" are one size fits all and easy to stuff in a therapy bag. Neutral print cotton is machine washable.

M7090 Large Buttons \$21.95

4 large buttons with slightly larger button holes to facilitate success while learning motor pattern.

M7092 Multi-size Buttons \$21.95

SUPERCATCH

Greatest ball game ever - it should be called Sure Catch! Far superior to all other velcro mitt and ball games. Well constructed of durable hard plastic and brightly colored velcro. Roll it, throw it, bounce it, play alone or in groups - it's hard to miss! Develops hand/finger strength, builds eye-hand coordination and promotes self-esteem. Set includes 2 paddles and a velcro plush tennis-sized ball. Extra Supercatch balls are especially useful for independent play.

B1401 \$9.95
Extra Ball B1402 \$1.00

FROGGY TOSS

Young child version of our classic Supercatch (B1401), velcro catching game. But Froggy Toss has 2 soft mitts and 2 soft balls. No one gets hurt but everyone gets to practice their catching and throwing skills. **B1757 \$11.95**

CARIBBEAN DRUMS

No drum sticks, just fingers needed to play these authentic sounding miniature steel drums. Create some cool tropical sounds or just tap out a tune to your own inner drummer. Try labeling each section and have player duplicate a pattern. Full scale represented so the sky is the limit! Features record/playback and freestyle functions. Batteries required. Great size for travel or therapy bags. Work on finger isolation, bilateral coordination, sequencing, rhythm and response speed, all while having a fun little jam session!

B1500 \$19.95

ACCORDION PIPES

The one and only corrugated plastic tubes that make an amazing, addicting sound when pulled open and pushed together. 8 inch long, vibrantly colored pipes expand to 3' when fully expanded. Pipes can be linked together and bent to form twisted designs and marble mazes (sorry-no marble included). Great for

developing hand, finger and arm strength, hand stability, bilateral coordination, motor planning and visual and auditory attending. 12 pipes to a set.

- B8701 Assorted colors \$12.00**
- B8702 All clear pipes \$12.00**
- B8704 1 of each set \$22.00**

NOBBIE GERTIE BALL

2 color gertie with little green nobbies covering the surface. Adds visual and tactile interest. Soft and nonthreatening, but very visually alerting!

T2704 \$7.95

MONDO GERTIE BALL

Same easy to blow up design but in a larger, easier to catch size. Great for beginning catch and throw activities. Soft and non-threatening, 20" dia.

T2703 \$11.95

Bilateral Motor Coordination

TEXTURED POP BEAD

Easy to grasp, easy to snap, these textured beads are just the right transition size between our extra large snap beads for infants and preschoolers, (E8322) (E4403) and our more challenging sets of stars, hearts and bears (P9903). 100 beautifully crafted colorful beads in reusable plastic tube. Great for refining hand skills, shaping arches of the hand, and reinforcing bilateral hand skills.

B3639 \$19.95

BUZZ SAW

This high quality whizzer is made with wooden handles and a leather wheel. It requires bilateral hand use and coordinated and properly timed movements of the arms to keep things going.

B4303 \$6.95

ZOOBS

Zoob is the greatest snap, click and pop together toy! Pieces come in 5 slightly different shapes and 5 colors, and all interact

with each other. Zoobs are intrinsically easy to use, so kids are not intimidated by complex connections. Simply push together and pull apart! And once together the pieces can move and rotate, increasing play value. Unlimited, open-ended building potential spurs the imagination but the 40 piece travel set does come with directions for some amazing creations, as well as a clear vinyl carry case with shoulder strap. There is also a special piece that provides a stable base for building or standing your constructions. Perfect, success oriented construction toy will also improve hand and arm strength, motor planning and bilateral coordination!

B0441 \$17.95

Bilateral Motor Coordination

ZOOMORPHS

Built for years of successful play, Zoomorphs are durable, high quality, snap together animals. Set includes 40 interchangeable pieces that push together to form 4 realistic or fantasy creatures. Highly detailed with lots of color and texture

any construction will look good. Helps develop hand strength, imagination and body awareness.
B9385 \$16.95

FOAM FLYER HELICOPTER

Up, up and away it goes! This soft, lightweight, foam helicopter really flies. Hold the launcher

in one hand, place the copter on the connector, then pull the retractable string and watch it go! Great for bilateral coordination and visual tracking. The smooth and simple mechanism makes this a motivating and successful toy for indoor and outdoor use.

(Supervision is recommended for this and all flying toys!)
B6931 \$9.95

TOMY CONSTRUCTABLES

This simple construction set is perfect for kids ages 3 and up. The 18 big chunky pieces actually transform into a motorized, plane, train, helicopter and race car...or try building a vehicle of your own design. Beautifully crafted, the pieces push

together to form sturdy constructions with twirling propellers, turning wheels and a smoke stack that spins. Great for motor planning and bilateral coordination. Batteries required.

B0534 \$21.95

TURBO TOP TOWER

You get 5 colorful tops in graduated sizes and one wind-up launcher. Wind top onto launcher in a clockwise motion until you feel resistance build. Hold firmly in one or 2 hands, push release button and watch the

tops take off. Best results when launcher is held straight and just above table surface. Increase the challenge and try to get all 5 rotating at the same time or if you are brave, try stacking them. Can you get all 5 towered?

B6435 \$5.95

FUN TO FASTEN DRESS UPS

These are almost too good to be true! Adorable dress up outfits designed with realistic details to foster pretend play and language skills while also developing dressing and fastening skills. Three different careers and fasteners represented in each set (buttons, snap & zipper). All are highly durable, made from a machine washable cotton blend fabric. One size only, fits children from 2-7 years or possibly older. Matching hats included. Perfect item

for preschool, day care and at home dress up areas. Dress Ups also make great Halloween costumes.

B9906 SET A \$71.95

B9986 One Button Dress Up \$26.95
B9988 One Zipper Dress Up \$26.95
B9987 One Snap Dress Up \$26.95

TORNADO SPINNER

This action toy is hard to describe but harder to put down! One hand holds the bottom ring, while other hand grasps the wooden bead, then gently and quickly pushes up, releasing the bead before spinner reaches the top. This sends the tornado, made of colorful mylar strips into action. Up, up, around, around, then lightly back down, ready to start again. Some say it looks like hot glass blowing. Great for bilateral hand skills, grading of movements, fine grasp, and visual tracking. So simple to operate, yet fascinating to watch!

B2601 \$3.95

ZOOB – THE GAME

Award winning construction toy is now an exciting, new board game! Players move around the board collecting zoob pieces and race to build the secret Zoob creation on their card. Comes with 27 Zoob creation cards and 37 Zoob pieces. Great for design copy, motor planning, bilateral coordination and arm and hand strengthening!

B4581 \$24.95

TRICKY FINGERS

All cheer the return of this wonderfully tricky game! Standard set includes 2 individual playing boards and a set of 14 design cards. Great for classroom activity centers and group work. This modern classic of a game requires movement of 16 colored balls within the self-contained box. Patterns are duplicated by moving balls from holes in the bottom of the board. Helps develop kinesthetic awareness of fingers, bilateral and perceptual motor skills. Play individually or have races.

B4404 \$12.95

HEX PEG

Exciting new twist on the classic geoboard game where rubber bands are stretched around posts to create shapes and designs. In this version, the large 6 sided board has 37 posts interspersed with 54 peg holes; additionally there are 54 pegs in 4 colors. Players take turns stretching bands across 4 posts making straight lines. Each line must be attached to a previously made line by at least one post. As lines are attached players

attempt to form triangle shapes with one peg hole in the middle. The peg hole is then filled with one of their pegs. Person with the most pegs on the board is the winner. As an added bonus, Hex Peg also includes a set of design cards. Copy the placement of pegs and rubber bands to duplicate the pattern. A seriously valuable tool for working on bilateral and fine motor coordination, visual perception and visual planning.

B0112 \$24.95

THREAD HEADS

This friendly family of four just loves to change their look! Simply unscrew all the interchangeable ez thread blocks and then re-thread them a different way. Make little brother taller than Dad or dress Mom all in red. Beautiful solid wood blocks give the hands and arms a real bilateral workout. Heirloom quality, you will have them for years to come.

E3793 \$1.95

BABY SODA BOTTLES

You get 3 large clear plastic test tubes with soda bottle caps to keep them tightly closed. Perfect for securely storing pegs, pennies and other small manipulative. Great “put in” containers when using tweezers or tongs and as bottom is not flat but rounded, it must be held, facilitating bilateral hand use.

P6127 3 pc set \$3.95

P6129 15 pc set \$18.95

CARD HOLDER

Allows children as young as 3 to hold and organize cards, without the cards being bent, dropped or shown inadvertently. Ends frustration for both adult and child and makes cards fun again for the whole family! You may need more than one.

B9831 \$2.95

Upper Extremity Stability

These toys and materials encourage the use of arm/hand in slow, controlled movements away from the body and against gravity. This also improves the shoulder stability and mid-range control of the arms needed for improved hand skills.

WACK-A-MOUSE

Old time favorite arcade game can now be played conveniently at your own kitchen table or anywhere. Watch those little critters carefully and when they peek their heads out of their holes, use the hammer to knock them back down. The quicker and more successful you are at making contact, the more points you score. Great for improving eye-hand coordination, shoulder stability, strength and response time – so wack away!

U0680 \$22.95

UFO

Great toy for working on bilateral coordination and visual tracking. Load 1, 2, or all 3 of the 8-in diameter flying disks, hold handle firmly and pull power cord out quickly. Watch the disks take flight soaring into the air or spinning on the ceiling.

B9327 \$5.95

DOINKIT™ DARTS

Best quality and best designed magnetic dart set anywhere! Light weight DoinkIt™ material keeps the 6 darts flying straight while super magnets in the tip keep them where they hit. No more sliding or falling off the official 16" board. Playing darts is great for working on upper extremity and shoulder stability, throwing skills, wrist extension and palmer arching, and eye hand coordination for aiming. A terrific family or clinic activity!

U3944 \$27.95

DOINKIT™ DART REFILL

6 darts in 2 colors that will work on any magnetic dart board. So keep your board and just upgrade the darts.

U3946 \$9.95

EGG & SPOON RACE

You get 4 colored spoons and matching eggs. Balance your egg on the spoon and race to the finish line. Run, walk, kneel walk, walk backwards, etc...

but drop your egg and it will crack, spilling its "yolk like" bean bag. Classic relay game working to improve shoulder and arm stability and to help slow down and organize those "hyper" kids.

U0572 \$12.95

RAPIDO

A fast-paced game needing quick hands and quicker eyes. Two to four players race to be the first to fill their collection tubes with the correct sequence of colored balls. Collection tubes must be held in a neutral forearm or "thumbs up" grasp, so thumb can cover top

opening in tube preventing balls from accidentally spilling out. Balls are collected by placing tube over balls and pushing down. Reinforces a very important hand position and its lot of fun as well. Shake things up and try it with your non-dominant hand!

U3230 \$19.95

GIANT 4 IN A ROW

Oversized plastic game board measures 18" x 21" allowing this classic strategy game to be played in many different positions. With the game on the floor, try playing from a side sit, kneeling, or half kneel position or while sitting on therapy balls or T stools. With game on a table top, placement of the playing pieces becomes a challenge of upper extremity range of motion and shoulder stability. Single players will enjoy placing pieces and creating patterns with the 21 white and 21 black discs. Great motor and perceptual fun for use in clinics, classroom or home setting.

U2942 \$36.95

Upper Extremity Stability

RAINBOW RIBBONS

Put this beautifully crafted and brilliantly colored 7 foot long ribbon on a stick into a child's hand and watch them create eye-catching swirls, loops, wiggles and squiggles. Develops motor coordination and builds arm and shoulder stability. Try one in each hand for a bilateral twirling challenge.

U2021 \$6.95

TECNO

This toy will quickly become one of your top 10 tools for therapy! Similar in design to a classic erector set but these pieces are colorful plastic. Bigger, easier to handle pieces still provide a real fine motor planning and visual perceptual challenge. Comes with enough pieces and tools to copy the 12 designs in the Tecno manual to make your own creations. Nuts, bolts, girders and brackets all screw into the building platform which is also the top of the carrying case. Two and 3 dimension building is possible. Kids love this toy and have a real sense of mastery and accomplishment when they finish a design. Also works great at home or as a classroom center.

B7655 \$23.95

FISHING FEVER

Fisherman of all ages will respond to this challenging game of "catch the fish"! Comes with 4 rods with hooks, 4 matching stands and 12 fish. Players must literally hook a fish, no magnets here, and then carefully maneuver that fish onto their stand. Played indoors or out, with friends or alone, this is a great way to build shoulder stability and ability to focus. Hope you catch the Big One!

U8933 \$21.95

MAGNETIC WHEEL

The plastic wheel will continuously rotate around the 9" metal frame if moved with appropriately timed, smooth graded movements.

M3909 \$4.95

BALANCE BIRD

Plastic birds with a wind span will balance on your fingers if you let them. See how long you can balance the bird on finger or plastic perch, while you stand on one foot, jump, walk or move your arm around. Also try bird on your nose contests or a bird in each hand.

U3434 \$1.00

CHINESE YO-YO

This Yo-yo on a stick is easier than a standard yo-yo. Encourages controlled, isolated movements of one hand and wrist. Small, lightweight and inexpensive.

M4805\$.50

MAGNETIC EXPRESS

Use the magnetic wands to guide the 5 red and 5 blue metal balls through the maze. Fully enclosed-no parts to lose. Finely crafted of wood and plexiglass. Develops problem solving skills, visual tracking, eye-hand coordination and logical thinking. Dry erase markers (not included) can be used to draw various destinations for players. Play alone or with a friend. Have a race! Also can be used as a bilateral hand held maze. Tilt board to maneuver the balls through the maze.

U4503 \$30.95

JELLY FLOWER YOYO

You get 3 colorful tiers of squeezable, stretchable flowers that will bounce and spin like nothing else! Body stance is similar to when using a yoyo so you get a great mid-range upper extremity workout. But soft, lightweight material makes it much safer and more kid and house friendly than a hard yo-yo.

U3456 \$1.95

MAGNETIC NUMBER MAZE

Use the attached magnetic wand to guide the correct number of balls into the numbered baskets. Working backward from 10... or forward from 1... you get lots of opportunity to move balls around using the magnetic pen. A fun way to have children practice their pencil control, visual tracking, direction following and auditory memory skills. Also try as a hand held marble maze.

Tool Time

The use and mastery of tools is an ever present challenge for children and adults alike. The motor planning, hand skills, and cause and effect principles inherent in their use is hard to duplicate - and clients love them! We are pleased to expand this line and bring you the broadest range of simple tools available. Order in multiples for classroom programming.

A. THE TRAP

Kids love this metal trap attached to plastic handles. Squeeze the handles together to open, release and the trap closes. Can be operated easily to pick up or "capture" small items. Can be used by preschool populations on up, to promote thumb use, cause and effect, and repetitive arm movements. Trap is approximately 5" long.

P8201 \$4.95

B. WOOD TONGS

Use these 8" wooden tongs to move and sort small items. Encourages proper wrist and finger positioning needed for scissors and crayon use, while also developing finger strength, endurance and sustained co-contraction of the hand/fingers. Lightweight and inexpensive, ideal for group work or to use in classroom & home programs.

P2904 \$2.50

C. HEAVY DUTY TONGS

Similar in function to our wood tongs, but shorter and made entirely of metal. Requires greater hand and finger strength to use and encourages sustained co-contraction of the hand/fingers to maintain "grasp" on item being grabbed.

P2903 \$2.50

D. STRAWBERRY PICKER

A very unusual pint-sized picker upper! Made of stainless steel (no sharp edges), this strawberry picker is ideal for little hands. Use to pick up cotton balls, pom pom balls, yarn, monster men, almost anything. Helps strengthen grasp patterns, while also developing open/close pattern needed for scissor use.

P2901 \$.95

E. ZOO STICKS

A great tool for little hands. Shaped like animals with long legs, these zany tongs can pick up even the smallest things. Try them with M&M's! Great for pre-scissor work & basic hand strengthening & coordination.

G. THREE-POINT GRABBER

Push the plunger and three thin wire legs emerge ready to grab their "prey" (small items). Once caught release the items into a container, by again pushing on the plunger. This 8" long plastic grabber really works the muscles of the thumb, index and middle fingers helping to develop strength and stability in this area. Also helps to develop the ability to use tools. Low price allows you to order many for use with groups or to recommend for home programs. Supervision recommended due to design of legs. Try it with small animal figures or our spiny balls.

S2902 \$2.50

H. SPINY BALLS

Brightly colored, soft spine balls. Fun to squeeze, throw, hide, grab. How many can you tuck into the palm of your hand? 12 balls in a set.

P3901 \$3.95

MINI 3 POINT GRABBER

Adorable little plastic grabber will pick up most small, adorable little items. A fun way to exercise and strengthen the 3 fingers used for writing, buttoning, shoe typing and most skilled fine motor tasks. Push the plunger down and 3 grabber legs appear to snatch up M&M's, pegs, beads, screws, etc.

S0426 \$2.95

LIL' GRABBER

It looks and works like a small plastic mechanical arm. Squeeze handle between two fingers to close the pincers. Play robot and pick up and move small items without ever touching them. An amazingly motivating new tool for working on finger and hand strength.

P3913 \$1.00

TOOL KIT SAMPLER

TWEEZER SET

Get one of each of the four tweezers. 3 stainless steel, 1 plastic as described below. Sorry - no small objects to "pick up" included.

P9963 \$9.00

J. LARGE E-Z OFFSET TWEEZER

These standard operating tweezers are 7 inch long stainless steel and require only a minimal amount of hand strength to squeeze closed. The pointy, not sharp, offset tip makes it easy to see the object you want to pick up. Quality construction allows for use as a precision tool capable of precise work. Pick-up paper clips, our new mini erasers, rice, etc. A great, highly durable addition to any "tool" collection.

P9965 \$2.95

K. E-Z REVERSE TWEEZER

It's a tweezer but you squeeze-er to open, not close. Release the tension and tip automatically closes. Five inch stainless steel tweezer requires little physical strength to operate. Pickup small items, place pegs, use one in each hand to string small beads. Fun tool for small hands. Has a pointy though not sharp tip.

P9964 \$2.95

L. RESISTIVE REVERSE OFFSET TWEEZER

Same concept as above but longer in length and more resistive to squeeze open. It also has a bent or offset point giving a clearer view of the object to be picked up. Wood-like overlay provides clear indication of finger placement for best balanced operation. Great tool for building hand strength and endurance.

P9966 \$2.95

M. PLASTIC TWEEZERS

At only 4 inches long, this "grabby, grippy" new hand tool is just perfect for little fingers. Specifically engineered to maintain alignment, the grooved plastic handle also provides tactile and visual cues for finger placement. Tip is pointed but not sharp and lined with non-slip teeth for holding items. Opens only 1/2 inch, so subtle and refined movement of the thumb and fingers are reinforced. Also great for working on midrange control of arms, midline crossing and range of motion. Try picking up small items including spiny balls, letter beads, colored rice, etc.

P2622 \$1.50

MINI ERASER COLLECTION

You receive an assortment of 50 small adorable erasers in the shapes of flowers, stars, turtles and other friendly characters. Approximately 3/4" x 3/8"

in size. They can be sorted by shape and placed flat on table or stood on edge for a greater fine motor challenge. Try picking them up or towering them using one of our tweezers or other tools to increase the hand and arm workout received.

P7643 \$3.50

BUG TONGS

Cool new hand tool with the scissor like handles and clear plastic ball at the other end. Great for catching bugs, putty balls or any other small items.

P8514 \$1.00

POPCORN FORK

Fun new hand tool was developed for, and works great at, picking up and eating popcorn without getting your hands all buttery. But it also works super at picking up pegs, glitter pom poms, mini erasers, etc. Careful not to squeeze too hard or prongs slip past each other and your "catch" might get away! Fun way to work on grading of movement and hand skills. Try adding a weight source to the hollow shaft to build finger and hand strength.

P3060 \$2.00

CRITTER BALLS

A spiny ball with a cute little face and long tail! Great used with our toolkit for developing hand skills or as classroom manipulatives. See how many you can hold in one hand or will fit into cupped hands. Assorted colors; 6 critters per set.

P3905 \$2.95

GLITTER POM POMS

Soft, colorful, fluffy 1/2 inch pom poms with the glittery threads that keeps them from sticking together. Perfect for picking up with any of our tongs, tweezers or other hand tools. 80 to a pack so there are plenty for group activities. How fast can you pick up all the red ones and put them in a plastic bottle? Also great for craft activities.

P6247 \$2.95

Hand/Finger Strength

"These toys and materials all require the exertion of differing degrees of hand and finger strength."

POP ROCKET

Set includes 3 colorful, air powered, rockets and a soft grip launcher all made from soft, safe foam. These, take anywhere, air blatin' rockets can really fly but are safe for indoor or outdoor fun. Great for working on bilateral coordination, hand strength and cause and effect.

S3326 \$5.95

MEGA JUMPZ

Push'em, jump'em, fly'em! These soft foam heads with the woven plastic bodies, are not very pretty but they really do move! Larger, mega version of our original Jumpz can actually reach 15 times their own 4 inch height. With Mega Jump action, these big guys are even easier to catch than their little brothers but work the same way. Push down on their heads and launch them off a table, wall or out of your hand. Go for height or distance, go bowling and knock down paper cups, score a basket...etc. Mega Jumps are mega fun for the hands!

Can we play ZeeBeez, please? ZeeBeez is a new spin, pop and catch toy that everyone wants to try. Press thumbs against the plastic design button in the center to turn the ZeeBeez inside out. Now grasp the stem, give it a spin and let it drop! Try to catch it as it popz and jumpz to 6 feet. A highly motivating way to work on hand and finger strength, visual tracking, aim, arm control and catching skills. You are going to need more than one so collect all 6 ZeeBeez designs!

S3346 \$3.95

SNAP N PLAY

This classic set of 65 wood blocks that literally snap together, a must for every therapy clinic, preschool and kindergarten classroom, after school and recreation program. Challenges the imagination while building arm/hand and finger strength, and facilitating bilateral motor skills. Start younger builders off by simply attaching 2 rods. Next, try making a basic 5 part car, it will really roll! Add passengers to the cars and race them or connect them together to make a caravan. Challenge older children to attach all the pieces together and time their effort so progress can be documented. Enough pieces for multiple players or split a set with another parent or therapist. A terrific set you will use again and again!

S1741 \$64.95

RESISTIVE REVERSE TWEEZER

It's a tweezer but you squeeze to open, not close. Release the tension and tip automatically closes. 5-6 inch length and slightly resistive to squeeze open. Wood-like overlay provides clear indication of finger placement for best balanced operation. Great tool for building hand strength and endurance. **P9966 \$2.95**

PUTTY KIT

A self contained kit you will reach for again and again! This convenient travel case contains 2 oz. of 3 different resistance therapy putties and a variety of small items. Use these pieces for pushing, making designs, hiding, etc. Enough putty provided in each color (yellow, red, and green) to fill most children's hands.

All materials neatly maintained in separate compartments. Designed for the therapist on the go!

POPPING GUY

It's wonderful, it's amazing, it's the return of The Popping Thing! This cute 4 1/2" soft orange rubbery alien has blue eyes, red ears and a red nose - that all "POP" when he is squeezed! Great for developing cause and effect, hand and finger strength and reducing tension. (No loose parts.) Order 2 or more - they get lonely. **S1003 \$7.95**

STAPLE FREE STAPLER

Teachers, parents, grandparents...no more worry about the children inadvertently hurting themselves, or others, with a stapler. This handy little device will bind 2-5 sheets of paper together without using a single staple, so it's also better for the environment. Requires a forceful push, strengthening hand and arm muscles. Kids love to staple, so let them with the Staple Free Stapler. **X3635 \$5.95**

Hand/Finger Strength

Dive, Dive, Dive - Our diving water toys are a motivating way to work on hand strength and visual skills. Kids of all ages, love them for the immediacy of their visual feedback and cause and effect properties. Squeeze and the item sinks, release and watch it rise. Each arrive to you in kit form with easy to follow instructions. All you add is a recycled plastic bottle, (of any size but 1 liter works best), and water. The bigger the bottle the harder the squeeze.

SQUIDY

Just squeeze the bottle and watch the diver, a squid-like creature, sink to the bottom, where it will stay until grasp is released. Then watch it rise. Buy two and have races.

S7506 \$3.95

HOOK

The challenge here, is to maneuver the hook diver onto the loop by squeezing and releasing the bottle at the appropriate time. Lots of fun!

Early Learning

"Items in this section reflect the infants and young child's need to interact with objects providing diverse sensory input. Vision, touch, hearing, cause and effect, basic concepts and simple motor skills are all reinforced."

FIRST PUZZLES

A wonderfully engaging set of 6 colorful two piece puzzles. Choose delightfully happy critters or very cute vehicles that fit together easily for early puzzling success. For 18 months and older. Helps build motor coordination, visual discrimination and language skills.

E5010 Farm \$12.95

SORT & SNAP COLOR MATCH

Wow! How can one product do so much? Comes

with an 11" x 15" wooden playboard with 54 holes, 10 reversible picture cards and 64 Snap Caps in 4 colors. Start with coloring in the picture cards by placing the matching snap caps in the holes. You can also use the black and white side of the card and color in the picture your way. Or use no picture card and simply make patterns on the wooden playboard. For older students try having them hold board in vertical position with one hand while other hand places caps. Snap caps fit snugly into holes so they will not fall out even if turned completely over. Slight resistance when removing gives fingers a mild workout. Comes with idea sheet with over 10 different activities. A really great piece of equipment you will use with everyone on your case load – even the older kids! **E1764 \$19.95**

WOODEN STRINGING BLOCK SET

Each set includes 12 chunky wood beads and a cotton lace with long, round tipped wooden needle and permanently attached end bead. Built for success, these first stringing beads are attractively decorated on both sides and each can stand on edge, making them perfect for pretend play as well as lacing. Two styles available.

ABC LACING ANIMAL CARDS

Classic lacing boards brought up to date with colorful graphics and lacing holes sequenced from A-Z. The letters of the alphabet and their sequence are reinforced as children sharpen their bilateral motor coordination and motor planning skills. You get 6 extra thick wild animal cards, and 6 - 36 inch laces in each set. **E2595 \$9.95**

LEARN TO DRESS MONKEY

Mr. Monkey is a fun, non-stressful way to introduce young children to dressing and fastening tasks. The friendly, and easy to handle 22" plush doll has 11 different dressing activities to help improve fine motor skills. Practice buttons, snaps, hook and loop, zipper and more. Sneakers, socks, overalls and shirt can be fully removed and put back on and laces can be tied. You help the monkey with his clothing and he will help you with yours! **E5315 \$35.95**

Early Learning

FANTACOLOR JR.

A terrifically fun workout for little hands and eyes. Colorful plastic disks are pushed onto the 48 short peg-like projections on the clear 12"x12" pegboard. Pegboard can be used upright for great hand positioning or flat where it locks down as the top to the storage tray. Comes with 16 colored picture cards and 48 disks in 4 colors. Great for working on basic color matching, design copy and hand skills!

E6253 \$24.95

TEXTURED SNAP BEADS

These are the crown jewels of snap beads! 16 highly textured, brightly colored top quality plastic beads snap together when pushed. A great bilateral workout for little hands.

E4403 \$19.95

BEAD SEQUENCE

This sturdy set of 44 jumbo wooden beads also comes with 5 wooden rods and 10 sequence/pattern boards. Beads come in 7 shapes and 6 colors. All are self-contained in a wooden tray with slide on Plexi-glass cover. Holes and slots are built in to hold the rods and pattern boards vertical. Children place the beads on the rods in the sequence presented in the patterns. Younger children can follow the colors; older ones try to match shapes as well. Great item for visual perception, hand skills and upper extremity stability work.

E1763 \$24.95

 **CHOKING HAZARD** Small Parts Not for under 3.

MY FIRST SIGNS

This beautifully illustrated, 10 page board book is filled with adorable full color pictures of toddlers demonstrating 43 simple but functional words in sign language. Gestures are a natural part of communication and can help with the acquisition of expressive language. This book is very helpful in teaching beginning signing to young children as well as to many older autistic children.

E5833 \$19.95

INTERACTIVE LEARNING CUBES

You get 5 cubes, one cube holder and an amazing amount of play and learning value! Place any cube in the holder and a friendly voice will identify which picture, (animal or letter) the child is looking at. In the other game mode you simply push the button and now the friendly voice asks the child to find a specific picture. Place the cube in the holder to confirm it is correct. The graphics are friendly and clear while the colorful edging on the cubes makes them easy for little hands to grasp and hold. Provides a fun, engaging way to reinforce fine motor skills, auditory and visual processing, and animal, letter and beginning sound identification.

E3210 Animal Cubes \$18.95

E1975 Alphabet Cubes \$18.95

NUT & BOLT SET

Classic set of 12 large bolts and their matching nuts. The 4 different diameters of the bolts can be easily matched by pairing parts with the same color and shape. All blue nuts are square in shape and fit all the blue bolts which have square tops. This lets younger children work on color and shape concepts while they exercise their hand skills and bilateral coordination. A must toy for all children to experience!

E1742 \$12.95

CHUNKY SHAPES PUZZLE

This bright, hand painted 8 piece form board will really grab your attention! To kids, the playful colors and shapes shout "Play with Me!" and these chunky pieces make that very easy. Pieces are so thick they

sit down securely in the cut outs while still rising above the surface far enough for easy grasping by little hands. The pieces will also stand on their edge for added play value.

E1702 \$9.95

RONDO VARIO

Classic shape and color matching game for ages 3+. Comes with 4 cute little caterpillar faces attached to sturdy laces with wooden tips. Players roll the symbol and color dice to see which shape, in which color, they are to put on next. Beautifully crafted with 42 wooden beads in 5 shapes and 6 colors. A great way to work on visual scanning and perception along with bilateral and eye-hand coordination.

E3233 \$19.95

TRAFFIC JAM SNAP-BEADS

Unlike ordinary snapbeads, these come in fun shapes. Trains, planes, boats and automobiles. Good for early sorting, identification, labeling, color recognition, hand and finger strength, and bilateral hand use. Don't be fooled by the name, these beads are not a "snap" to join together. 16 large chunky plastic pieces to a set.

E8322 \$11.95

POP A CONE

Pop'em in, pop'em out, pop and play! What could be more entertaining than building your own 4 scoop ice cream cone. Young children love choosing which flavor comes next. Great for building hand and arm strength and bilateral hand skills.

E6228 \$12.95

WILD HORSES

These are some of the wildest horses you have ever seen! Goal of the game is to round up as many horses as you can by rolling the two multi-colored dice and grabbing the horse with the matching coat before the other players! If your colors have already been taken, you get to take a horseshoe card. When all horseshoe cards are gone play stops and the person with the most horses wins. Quick, simple, visual perceptual game encourages color recognition, visual scanning and 2 attribute matching. For young and old alike.

E2372 \$11.95

KIM'S KUP

Designed by a therapist, this simple product accomplishes a lot. 6 inch, high clear plastic cup with handle and 2 screw on/off caps. Caps have two different sized holes and a slit on top allowing various items to be pushed/dropped inside. Set includes: 6 spiny critters, 6 spiny balls, 12, 2" long pegs, 12 small 1/4 inch pegs, 12 plastic counters and 12 small beans. All require different grasp patterns and varying amounts of pressure to drop through holes into the container. Great early toy, the handle encourages the use of both hands. Children love the simple cause and effect, the see through container, the feeling of accomplishment and the unique rattling when shaken.

P6702 \$17.95

MAKIN' SILLY FACES

A turn taking game for young children from Colorforms. Spinner selects the facial feature to be added to your face card. First to complete their silly face is the winner! Includes: spinner and 4 play surfaces. Ideal for body awareness, social skills and fun!

K - BASKETBALL

K- Ball, short for Kinesthetic Basketball, is a basketball game you play with your eyes closed! Impossible you say.....read on! One side of the 11" x 17" dry-erase surface depicts an entire basketball court, complete with men and a scoreboard. The other side shows only half court with men arranged in foul shot position. The men are actually preprinted circles and squares in 2 different colors scattered across the court. The object of the game is for the human players to score points. To do so, your game piece or tip of a dry erase marker is placed on your shape at center court. Decide which of your teammates you want to "pass" to and practice that move 2 or 3 times with your eyes open. When ready, make that same move but with your eyes closed. If your dot lands totally inside your shape, then it was a successful pass and you get to go again. If you missed your mark, ball goes to the other side. Feeling lucky?... go for that 3 pointer! Play individually or in teams. It's loads of fun and everyone's sensory system gets a real kinesthetic workout! Helps improve awareness of body position for young and old alike. So, why not challenge Grandpa to a game of K-Ball!

T5033 \$19.95

MY BEATING HEART

My Beating Heart is a soft huggable heart with the soothing heartbeat you can really feel! When hugging the heart to your chest, the tactile and auditory input reminds you of holding and stroking a favorite pet. The calm and subtly changing beat

models the human heartbeat in a meditative state. You quickly begin to relax and de-stress, your respiration changes and naptime may not be far away. Try using My Beating Heart with children as part of calm down or bedtime routines, or as part of a sensory diet, prior to starting homework or before any high stress, anxiety provoking situations such as, trips to the doctor, dentist, or hair salon. You may need to buy 2, one for therapy and one for yourself!

WILBARGER PRESSURE BRUSH

Designed by Patricia Wilbarger for use when following her

Therapeutic Massage Protocol ("Brushing Protocol"). The built in, non-removable handle makes it very comfortable for the caregiver, producing less hand strain and slips of the brush. More consistent input produces better results. Best results are seen when protocol is administered properly by a trained individual.

SCRUB BRUSH

Scrub-a-dub-dub! The bristles of this small rectangular plastic surgical scrub brush feel soft if used in one direction but stiff and coarse if used in other direction. The bristle tips are specially cut to create a three sided point so more surface area of the brush makes contact with the skin. Try it for tactile defensive programs, sensory stim, or just to wash hands and fingernails. (Approximately 2" by 3"). Course Brush also available for sensory stim and exploration (not for scrub programs!)

DINOSOARS

All it takes is a blow to get this “copter” going! Blow a little and watch it spin, blow a lot and we have lift off! Great oral motor fun for everyone, dino included.

O3339 \$3.95

IT'S TIME TO GIVE UP YOUR PACIFIER

Talking, eating and singing are just some of the things little ones can do without a pacifier in their mouths! Book shows toddlers the benefits of becoming big kids to gently wean them off their pacifiers. This book will help your child say good-bye to the binky!

X1317 \$8.95

SPRAYZA

Airbrush a blast of color with a single blow! Place one of the 12 markers into the sprayza tool and blow on the mouthpiece. Use one of the 20 stencils and color guide or venture out as far as your lung power will take you. A really n way to work on breath control and respiration.

O5035 \$14.99

PLAY WITH YOUR FOOD

This clever idea may be “The Answer” to the “picky eater” problem. Colorful, divided melamine plate has a different animal graphic in each of the 4 food wells. The spinner will point to a picture of one or more animals and give an instruction such as “take one bite” or “one bite each”. The child becomes engaged in the game process rather than in a battle of wills with their caregiver. When starting, try putting favorite items in biggest sections and least liked in smallest. Comes with one plate, matching mug and spinner. Dishwasher safe, not for microwaves.

O8355 \$19.99

SPEECH-ERCISE

Finally, a fun easy way for kids to develop pronunciation and articulation skills. Follow the workout leaders on the CD through drills, songs and strategies that focus on mouth movements, basic vowels and consonant sounds, complex consonant-vowel transitions and advanced word strings. Also, comes with a parent guide and over 30 worksheet pages you can print from your computer, to reinforce the Speechercise workout. Developed by M. Troy McLowry, CCC-SLP, the program is fun and perfect for use at home, in the car or at school. Children with articulation disorders, oral apraxia and oral-motor weakness will benefit from the musical mouth workout!

L8134 Level 1 (3-6+ years) \$12.95

L8131 Level 2 (5-9+ years) \$12.95

PUFF PASTRIES

A deliciously breathtaking game where players have to “puff” the ball into the designated hole to earn points. The game board is engineered at a slant within the box so gravity is working against you. Two weights of ball give all players a chance. Some players may do better using a straw to help direct air flow. Fun way to work on breath control, lip closure, and respiratory endurance, all contributing to improved speech and oral motor skills.

O5627 \$13.95

Oral Motor Tools & Toys

PRO-PREFEER

A terrific tool for providing oral input. The one-piece construction consists of a lightweight, easy to control probe handle and a rounded nubby tip. Easy to clean and tip will not separate from the handle. **O1403 \$5.50**

ARK PROBE

Shaped like a small toothbrush, this new tool for oral motor treatment provides sensory input to gums, palate and tongue. SENSATIONAL KIDS: HOPE AND HELP FOR CHILDREN WITH SENSORY PROCESSING DISORDER

BY DR. LUCY JANE MILLER

Dr. Miller has been investigating, analyzing and explaining Sensory Processing Disorders (SPD) for over 30 years. Now, in her book, Sensational Kids, she offers families, teachers and other professionals who live and work with SPD, her lifetime of insights as a clinician, and her knowledge as the disorder's leading research scientist. The book provides comprehensive explanations for the 3 main types of SPD and outlines the early warning signs to help parents identify, understand and get treatment for their child's particular disorder. In clear, accessible terms, she also explains the science of SPD, causes and intervention methods. The 5 case studies are especially helpful in illustrating typical vs. atypical sensory development. Comprehensive and compassionate, this should be every therapist's, teachers and parents "go-to" book for questions about sensory processing issues. **X8529 \$24.95**

TEN THINGS EVERY CHILD WITH AUTISM WISHES YOU KNEW

BY ELLEN NOTBAHM,

The author, is a columnist, consultant and parent of a child with autism. She wrote this book, and the article it grew out of, in an attempt to give voice to those who are largely

unheard. To help all of us understand the world as the child with autism experiences it and to grant legitimacy and worth to their different way of thinking and being. This book will equip readers with a simple understanding of autism's most basic elements. Sensory processing challenges, speech/language delays, social interaction impairments, self esteem issues). Increased knowledge breeds understanding and changes expectations. This has a tremendous impact on the autistic child's journey toward a happy, productive and independent adulthood. A must read for professionals and para-professionals, but also for grandparents, bus drivers, babysitters, coaches, clergy, neighbors, dentists, barbers, etc.

“THE OUT OF SYNC CHILD”

Written by a teacher for parents, teachers, administrators and all other professionals interested in learning about SI dysfunction. The book is easy to read and understand and is very comprehensive in it's presentation of a complex subject. Realistic examples of children and their behavior are given throughout to assist the reader in applying the information. The author, Carol Kranowitz, has more than 20 years of teaching experience, many of which were spent working closely with Dr. Lynn Balzer-Martin, an Occupational Therapist who specializes in identification and treatment of sensory integration dysfunction. The book includes topics such as:

- Recognizing SI dysfunction both at home and at school
- How to tell if your child has a problem with tactile, vestibular or proprioceptive sensation
- What is and is not SI dysfunction
- Diagnosis and treatment
- Strategies for home and school
- Case examples are given throughout.

FINE MOTOR ASSESSMENT**

BY MARIE FRANK OTR & AMY WING, OTR

This performance based observation tool was developed to expedite the evaluation process of fine motor skills while maintaining relevance to classroom function and success in school. The tool is divided into 3 sections; the therapist guide and 2 skill assessment sections. The therapist guide is very

important and should be read by all, especially new or less experienced pediatric therapists. The therapist guide provides a brief explanation of each task in the workbook, including guidelines regarding what types of observations a therapist should be making with each task and what those observations might mean. The first evaluation section involves Classroom Skills and the tasks are found in the reproducible workbook section. The tasks are presented developmentally using engaging kid friendly graphics. If the child has problems with the workbook classroom tasks, completing the Supporting Skill activities will help you understand why the child is having problems with school related tasks. The second group of activities addressed the supporting/underlying skills needed to achieve quality fine motor outcomes. The evaluation comes contained in a 3 ring binder for easy access to reproducible pages. Includes a closeable pouch for storing small needed items.  MAIN CLASSROOM AND SCHOOL ENVIRONMENTS FORMS:
 BY HEATHER MILLER KUANECK, DIANE A. HENRY AND
 TARA J. GLENNON

The Sensory Processing Measure (SPM) offers a complete picture of a child's sensory functioning at home, at school and in the community. Recognizing that sensory processing problems often manifest differently in different environments, this set of 3 integrated rating forms assesses sensory processing, praxis, and social participation in elementary school children (ages 5-12). Firmly grounded in sensory integration theory, it provides norm-referenced standard scores for 2 higher level integrative functions - praxis and social participation - and 5 sensory systems - visual, auditory, tactile, proprioceptive, and vestibular functioning. The 75 item Home Form is completed by The Child's parent or home-based care provider. The Main Classroom Form (62 items) is filed out by the primary classroom teacher. The School Environment Form (10-15 items) per environment, completed by other school personnel. You will find the SPM comprehensive and clinically rich. It supplies the information you want and the psychometric integrity you need.
