Pocket Full of Therapy

HAMMOCK CHAIR SWING FOR CHILDREN

Made from organic cotton and with an integrated rotary device, the Hammock Chair provides a more open and vigorous vestibular experience. Extra care is taken in the construction to provide an attractive, durable product of the highest quality. Perfect in clinics, therapy rooms, play and children's rooms. Great alternative to other, more institutional looking pieces of vestibular equipment. Weight capacity to 175lbs.

Q9877 Green \$79.95
Q9875 Purple/Pink \$79.95

HANGING CROWS NEST

Beautifully crafted swing provides a safe, child sized, "snug as a bug" space for children. Great space for calming, reading, playing or for generating vestibular input. Comes with a soft, overstuffed removable pillow in the bottom. Material is quick drying and safe for indoor or outdoor use. Readily attaches to suspension hardware in therapy clinics, to tree limbs outside or freestanding stand is available. Rotary device not included. Weight capacity to 175lbs. See online for stand and mounting

hardware options.

Q9873 Indoor/Outdoor (pale blue & orange) \$127.95
Q9871 Colors (Indoor-Cotton; Specify color or blue/

SWINGBALL JR.

A great piece of equipment for parents and therapists, at home, clinic or in school. When set-up you have a soft foam ball attached to a length of rope, which is attached to a height adjustable central pole. Using the 2 included rackets children play together or alone, trying to hit the ball around and around. Use inside or out to work on visual tracking, timing, arm strength and generalized endurance and fitness. Made of lightweight plastic, all components can be easily fitted back into the carry case...which also acts as the stand.

M3568 \$49.95

SMACK-A-BALL

Smackaball is a new, versatile piece of gross motor equipment perfect for all ages and skill levels. Comes with 2 very light, "put together" catching hoops and one beach-ball type ball, allowing for individual or 2 person play. The main idea is the ball is thrown and then caught by landing in the hoop. Hoop can be held in 1 or 2 hands. To get the ball moving again, it is smacked from the underside and sent sailing, hopefully to be caught again. Great for improving motor planning and bilateral coordination while also increasing arm and hand strength, endurance and range of motion.

B4460 \$21.95

RIDE-ON PONY

Amazing

"kid powered" ponies are soft plush

on the outside with a long lasting, heavy duty mechanism on the inside. Forward movement is accomplished through strength and coordination flexion and extension at the hips, knees and elbows. Highly motivating to all children, the ponies provide an easy to care for, non-judgmental companion along with a great physical and motor-planning workout. Ponies only move forward, can be used inside or out but only on flat surface. Helmets should be worn by all riders. Sit a child on one of these ponies and watch them go! Comes in 3 sizes:

Q9801 Small (3 to 7 yrs.) 21" seat height - weight to 110 lbs \$259.95
Q9803 Medium (5-12 yrs.) 27" seat height - weight to 150 lbs. \$359.95
Q9805 Large (10yr-Adult) 31" seat height - weight to 200 lbs. \$499.95

FLOOR SURFER SCOOTER BOARD

Beautifully and functionally designed, this Floor Surfer rolls smoothly and easily while safeguarding fingers. Padded, ergonomic design is 23 inches long, 15 inches wide and hold a maximum weight of 220 lbs. Perfect for all scooter board activities, in prone, supine, sitting and kneeling positions. Fits all sizes but ideal as a first scooter board for younger children due to ease of movement, support provided and finger safety.

Q1163 \$129.95

Pocket Full of Therapy

ITRAX

Innovative game where players try to be the first to use their visual tracking and problem solving skills to find the only path connecting 2 blocks on the very colorful pattern card. They then must recreate the path in 3 dimensions using the pieces provided. Lots of ways to adapt game to students/players level. Use fingers or a dry erase marker to help find correct path; recreate path directly on top of card; recreate entire board for more of a spatial challenge. Comes with 25 double sided, 8"x8" pattern cards in 3 levels of difficulty and 44 plastic lines and blocks for recreating the paths. I TRAX, you Trax, we all Trax!

V7866 \$19.95

TABLET MOSAICO

Beautifully made in Italy, this portable tablet provides 2 magnetic dry erase surfaces, 8 full size, full color mosaic patterns and over 400 soft foam magnetic pieces in 8 vibrant colors and 5 shapes. Create incredibly colorful mosaics with

the thick, generously sized half inch pieces. Highly motivating for children and adults alike. Fingers and eyes get a rewarding workout. Constructed with storage basket underneath for pieces and a top that can be worked on flat or in an angled position.

M7865 \$59.95

PALLINO

A fascinating pinball-like game that encourages bilateral coordination and logical thinking. Includes 16 pattern cards for creating, with a touch of a few buttons – realistic pictures or graphic designs. Bright, contemporary colors keeps players motivated and working. Made of durable plastic with fold up legs and

no loose parts. An amazing tool for improving motor planning, sequencing, motor coordination, hand and finger strength and visual perception. Young children simply work on motor control as they make the balls zip or drop around the board.

M3506 \$45.95

RAMI

Welcome to command central! You are in control of all the switches that move all the levers that control access to all the pathways of this colorful maze game. Move gates correctly and the colored marbles will fall into the matching colored slot. Miss a gate and who knows

where the ball will drop! A fun, motivating way to exercise ocular motor skills of visual tracking and scanning, visual endurance, and eye-hand coordination.

V0507 \$39.95

CREATIVITY CUBES

Unique set of 12 large cubes with different components of a picture puzzle on each side. Picture puzzles are either composites of people, tangram shapes or mazes. Activity booklet contains the complete instructions for 30 tasks and the whole, unbroken pictures of what players are trying to recreate. This simple set of cubes can have a big impact on visual memory, directionality, spatial relations and attention to detail and other visual perceptual skills. Assembled puzzles are approximately 5.50"x 8.25".

V4462 \$9.95

TRACE-THE-8'S

A fun and engaging activity designed to be used with children or adults. It works on ocular-motor skills, midline crossing, laterality, eye-hand coordination and brain integration. This classic therapeutic activity has been totally re-imagined, wildly expanding its therapeutic range!

Set includes 10 fully laminated charts of increasing complexity, 2 dry erase markers and an eraser. Charts are meant to be used in a variety of ways and in various positions and orientations. Also comes with an Info Sheet outlining how to use, skills addressed, suggested variations, care and maintenance.

X5002 \$42.95

Pocket Full of Therapy

SQUISHY GORILLA

Cute, little purple gorilla is a wonderful handful of squishy, tactile delight! Bet you can't squeeze just once!

T5032 \$3.95

BUTTER PENCIL GRIP

The round shape of the Ark Butter Grip serves as a tactile cue around which the fingers grasp, promoting an open web space, arch support and proper placement of fingertips in relation to tip of pencil. Works equally well for right or left handed writers on standard pencils and with most pens. The 1" diameter readily fits the hands of children and young adults. 2 per pack.

W8809 \$7.99

DEVELOPING CUTTING SKILLS

Developed by OTs and teachers, these books target specific skills that will enable children to develop the coordination needed for accurate cutting. Easy to use, reproducible worksheets provide a wealth of activities. Book 1, for younger students, starts by reviewing the proper way to hold scissors and open and close them. Next, students are taught how to hold and snip paper and then how to cut in a single direction and to cut along a line. Book 2 covers the cutting of corners and curved lines. The movement of the paper holding hand and the different directions in which right and left handed cutters cut is also part of the instruction. These are important but little addressed steps to successful scissor use. Books also include developmental milestones that can be used for planning, assessment, and creating IEPs.

W7851 Book 1: stage 1-3 \$16.95

W7859 Book 2: stage 4 \$16.95

PRE-WRITING PATTERNS

This 64 page book presents a simple, systematic, and fun approach to practicing the 6 basic prewriting patterns that are essential to letter formation and handwriting fluency. Includes 60 reproducible practice pages and a checklist.

W6241 \$12.95

POP MOUTHS

Extraordinarily hearty little fellows who stick out their tongues with a resounding "pop" whenever you squeeze their bodies! Wonderfully motivating means for building strength and stability in the 3 fingers needed for writing, scissor use and most fine motor/manipulative tasks. Opposed finger positioning and an open web space are reinforced. Assorted styles.

S5055 \$2.00 each

LETTER CONSTRUCTION ACTIVITY SET

Attractive, beautifully made set of 60 color coded plastic pieces snap together to build all the upper and lower case letters of the alphabet. Activity cards show you what component pieces you need to collect and provide a full color guild for construction. Reinforces letter construction, pre-writing skills along with motor planning and fine motor skills. Largest piece is 10" in length.

W7868 \$39.95

RAINBOW WHIRLS PEGGING GAME

Color, color, color! If you are attracted to color then you will want to interact with this amazing peg board. Beautifully crafted, these 32 chunky pegs and rings totally fill this 7.5"x7.5",

16 hole beech wood board with color. Placement and stacking of pegs and rings provides a perfect motor challenge to young hands. For older players, give 1, 2 or 3 step directions on how you want the pieces placed. Color patterns for copying to be available soon.

E6231 \$43.95

Pocket Full of Therapy

PUTTY PETS

Who knew putty could be so much fun! Each pouch has approximately 1 oz. of colorful medium resistance putty and a variety of crazy plastic body parts. With 6 different styles available you can put together some crazy looking pets! The real fun comes from watching

them sag over time, creating new looks as they melt. Great for building finger strength, wrist extension and refining hand skills.

T1845 \$4.95

SEEK-A-BOO

Delightful picture game features 36 large, round "Seek Me" photo cards and 36 smaller matching, "Find Me" cards. Scatter photo cards around an area either face up or face down depending on challenge level you wish to create. Players must "seek" out the matching pictures. Beautiful, color photos depict themes such as food, clothing, animals, colors, every day activities, etc. Great materials for facilitating language, attending, ocular scanning and categorizing skills. Try crawling or jumping between pictures to add a motor component to the game.

E3223 \$19.95

FRUBBLES MUSICAL RECORDER

This 6 inch recorder works amazingly well simply as a 4 hole musical instrument and even better as a bubble blowing, music making machine. Just dip the end in bubble juice, blow through the mouth piece and launch a stream of bubbles into the air. Comes with 2 oz. of solution and a dip tray.

O4465 \$4.50

PANCAKE PILE UP

Fun, physical game gets everyone up and moving! Player's race, relay-style, to stack and serve the pile of pancakes that matches the menu cards...but don't let the pancake fall off the spatula as you walk them to the table or you will have to start again. Develops balance, coordination, upper extremity stability and mid-range control along with visual memory and pattern recognition. Great group activity.

E4467 \$18.95

SNAPOO

Snapo blocks slide, snap, and push together as well as pull apart...all with a satisfying and motivating "snap"! Comes with 81 colorful plastic pieces in a clear container. These half inch sized pieces connect on all sides and are a perfect manipulative for young and old alike. Comes with a sheet of suggested builds or you can construct your own original designs.

M7862 \$12.00

SMARTY BLOCKS

Amazing set of 12 beautifully crafted wooden blocks with engaging graphics of letters, numbers, animals, colors etc. on each side. Children have one minute or as long as you decide, to complete as many

challenges as they can. The 120 Challenge Cards smoothly transition players from simple stacking puzzles to sequencing, reading, patterning, and logic cards. Designed by educators with content based on National Common Core Standards, Smarty Blocks helps children stretch to higher thinking as they play. Builds manipulative skills, visual and spatial skills, pattern recognition, number concepts and critical thinking. Appropriate for solo or small group play for ages 3 years to 99.

E4464 \$29.95

PENGUINS ON ICE

Way "cool" set features 100 happy little penguins that love to be placed atop the 10 projections on each of their 10 ice bars. Ice bars connect horizontally to make a 100 peg grid or end to

end to make a number line. Penguins come in 10 brilliant colors and lend themselves perfectly to tool use and all sorts of in-hand manipulative practice, as well as sorting, patterning, and many other math concepts. Very versatile set for individual or group work. Enough materials to split set between 2 therapists or classrooms. Comes with Activity Guide, correlates to NCTM Standards.

P7861 \$34.95

Pocket Full of Therapy

MUFFIN MATCHUP

This fun set of materials includes a 6 well muffin pan, 60 colorful mini muffin counters, 1 Squeezezy Tweezer, 12 double sided sorting inserts,, 2 foam dice, (1 for color, 1 for number), and an Activity Guide. Engaging

set helps develop a multitude of sorting, counting, matching and early math skills along with fine motor/manipulative skills. Add another Squeezezy Tweezer or another tool when 2 or more players. Great as a Classroom Center, of for individual or group play.

P3508 \$24.95

A. HELPING HANDS TOOL SET

This colorful set of 4 high quality plastic tools makes working on fine motor control and hand skills a breeze for the younger child. Set includes one each of the; small Gator Grabber Tweezers: Handy Scoopers/Bug Tong; Twisty Droppers where you squeeze the bulb to push an air stream out of the twisted tube; Squeezezy Tweezers which acts like a smaller, less resistive version of our Trap, (P8201). Children are highly motivated to use these terrific tools for building the little hand muscles needed to develop writing, cutting and fastening skills.

S7855 \$9.95

A. MINI GATOR TWEEZERS

These pint-sized tweezers have real pick-up power. Just 4" long, they were designed for little hands. Durable plastic. Colors vary.

P6239 \$1.50

B. HANDY SCOOPERS

Bubble Tongs, Bug Tongs, what ever you call them this kooky tool is a handy way to build the muscles of the hand needed for scissor use, pencil control and other fine motor tasks such as buttoning... and they're crazy fun! The translucent scoops at the end of these sturdily made easy-grip handles lets players see what they have inside. Great for picking up small objects, water play and bug collecting!

P6244 \$3.50

C. TWISTY DROPPER - call for availability

D. MINI TRAP – SQUEEZY TWEEZERS

This new "mini trap" fits perfectly in small kid's hands! Squeeze the handles together to open, release and the trap closes. Used it to easily pick up or "capture" small items. Can be used by preschool populations on up, to promote thumb use, cause and effect, and repetitive arm movements. Mini Trap is plastic and approximately 4" long.

P6233 \$2.50

JUNIOR MECHANIC

Similar to our Take Apart Vehicle product, (M2722), but you get 2 smaller models instead of one larger one. Each set comes with a colorful, high quality Race car and Train Locomotive along with a special manual screwdriver that prevents over-tightening of the pieces. Together there is a total of 43 pieces to take apart and put together again and again for hours or years of fun! Terrific for working on manual dexterity, bilateral coordination, motor planning, memory and problem solving.

M6246 \$19.95

JUMBO TWEEZER

These colorful plastic tweezers feature ergonomic depressions to guide proper thumb-finger placement facilitating use of an open web space when working. Helps build hand and finger skills for better writing and fine motor skills. 6" length provides moderate resistance when picking up counters or small objects for sorting, midline crossing and range of motion activities. No color choice.

P6248 \$1.50

SOCKET TO ME: DESIGN & DRILL

As part of the award-winning Design & Drill line of toys, kids can now learn to use a working socket wrench to attach colorful bolts to 4 construction projects. Flip the switch to use wrench for removing bolts when

completed. Includes a boat, robot, race car and rocket which can be filled with bolts and then used in pretend play. Strengthens motor planning, hand skills, and endurance while encouraging creativity. Add additional power drills for play by 2 or more individuals.

P3512 \$21.95

P3525 Extra Power Drill (2 bits-requires batteries) \$9.95

P3519 D & D Activity Center (Power Drill, manual hand wrench, screwdrivers, 20 patterns) \$42.95

P3522 D & D Take Along Tool-Kit (Power Screwdriver, 3 bits, 10 patterns) \$29.95

Pocket Full of Therapy

SENSORY SNAP BEADS

These great quality, highly durable, soft plastic snap beads will provide multi-color and multi-texture fun and skill development for little hands! Easy to grasp, the beads come in a reusable plastic jar with handle. Whether pulling apart or pushing together these beads

are perfect for encouraging bilateral hand use, hand strength and stability and visual focus. Classic, infant, toddler and preschool toy. **B4453 \$24.95**

FANTACOLOR PORTABLE PEGBOARD

Mosaic twist on a classic white plastic fantacolor pegboard comes with 300 brightly colored square and triangle pegs perfectly sized for building fine motor manipulative skills. All pieces store in easy to carry case with lid. Booklet and box provide pictures for copying or create your own mosaic designs. Great for working on auditory, memory, pattern following/creating and in-hand manipulative skills.

P6241 \$16.95

SNEAKY, SNACKY SQUIREL GAME

Fun game for 2-4 young children. Players take turns using the adorable Squirrel Squeezers to pick up and place the correct color acorn into the corresponding hole in their log. First to fill their log wins. Spinner tells you which color acorn to pick but it also has spaces marked, "pick an acorn," "steal an acorn," "lose an acorn," so there is some beginning strategy

lessons to be learned. Motivating way to work on improving fine motor color, hand strength, matching and sorting, and decision making skills.

P3532 19.95

PIP SQUEAKS

Pip squeaks are adorable, 6 inch long animal shaped tongs. It all started with the "Sneaky Snacky Squirrel" and then his Bunny, Skunk and Froggy friends joined the fun. Very motivating for working on hand/finger skills, range of motion, crossing midline, etc. Great addition to any therapy bag, rice or water table or home program. 2 sets available.

P3305 Squirrel & Frog Set \$11.95

P3307 Bunny & Skunk Set \$11.95

HANDS FREE WATER BOTTLE CLIP

We all carry water bottles. They get thrown into therapy bags, backpacks, purses, gym bags, etc and we just cross our fingers that they don't open or get punchard! What a mess if they do! What will get wet and what will get ruined? Well, here's the answer: A Clip that snaps onto the neck of most bottles, then can be attached to the outside strap, belt loop or handle of almost anything! Always within reach, hands free and worry free!

X7009 \$3.95

I HEAR WITH MY LITTLE EAR

Written by a speech pathologist, the 102 games in this practice book will facilitate development of a child's speech, language and literacy skills. The active games combine visual auditory and kinesthetic approaches to learning and cover a wide range of skills, including identifying syllables, recognizing initial and final word sounds, rhyming knowledge and phonetic manipulation. Designed for group settings, using little equipment these reproducible games will quickly become a favorite of teachers, therapists and children alike.

X7853 \$17.95

POUND A PEG

Classic wood toy should be part of every toddlers and preschool child's environment. Simply pound the eight colorful pegs into the frame, then flip it over to repeat the activity again and again. Builds hand and arm strength and endurance along with visual attending and focus skills. Also, teaches pride in accomplishment and perseverance. **E2529 \$9.95**

PRESS & SPIN PICTURE BINGO

This classic game comes in a conveniently small package but packs a

lot of play value. Picture Bingo features a 6 color/fruit spinner that requires a push for each spin. Comes with the 4 fruit filled 16 space bingo cards and markers for covering the matching pictures. The winner is the first to get 4 in a row, the 4 corners, the perimeter, make an "x" or fill the entire card. Work on fruit and color identification and counting. Also perfect for work in different positions, such as on belly, quadruped and while sitting on or lying prone over a bolster or wedge.

E2527 \$6.95

Pocket Full of Therapy

DBOX - PUZZLE AND BUILDING SYSTEM

The "Think outside Dbox" puzzle and building system all in one. Use these 16 yellow and blue, one inch square cubes to build the puzzle segments and your mind to put them together into the pictured configurations. To build, simply align and push pin of connector piece into one of the holes on a receptor piece, rotate clockwise 90 degrees and they are connected...reverse movement to take apart. Great for developing palmer arching and hand/finger stability. Instruction/challenge book provided with many more puzzle configurations available online. Players from 6-99 will have fun building, creating and solving endless puzzles!

M1062 \$24.95

SKIPPITY

Great new game plays like beginning checkers but with more colors and more jumping. Start by filling the board randomly with all the colorful markers. On each turn players make as many jumps as they can, stacking their "take" by color on their home base. When no more jumps/moves can be made, the winner will

be the player with the most complete sets of each color skipper. Players learn to plan moves and jumps so they get the color they need and maybe block their opponents from getting the colors they need. Great for building spatial relations, directionality, planning skills and color recognition.

R5050 \$19.95

WIGGLE WHOMPER KIT: IMPROVING SENSORY REGULATION IN THE GENERAL EDUCATION CLASSROOM

Kit includes: An instructional manual with activity suggestions and all materials needed to be implemented by a teacher within **any** classroom, to help **any** student regulate environmental stimuli through the use of tactile, visual, auditory, gustatory, vestibular, and proprioceptive based tools and activities. Each activity is based upon

true research, which is cited on each activity page for quick reference. Successfully classroom tested - Can also be used by parents at home. Simple materials can be kept in purse or glove compartment for use on the go.

Q0404 \$184.95

"I CAN DO THAT!"

CARD GAME

Join all "The Cat in the Hat" Characters to play this activity card game. On each turn a player flips over 3 of the 24 activity cards. When 1 red, 1 yellow and 1 blue card is turned over you have created a new challenge to try. Maybe you have to dance around a chair with the fish between your knees or jump to a door with the fish under your chin. Great group or family game. Builds motor planning, coordination, endurance and general

game playing skills.

M1018 \$5.95

UNDERCOVER TAPE™

DITCH THE ITCH!

Ditch the itch, the scratchies, the whining and the breakdowns caused by wearing clothes with an irritating tag, label or seam. Undercover tape even takes care of those maddening edges left when, in desperation, you cut the label out of your child's

clothing! To use, simply remove tape from liner, place flat on irritating spot and rub with pressure to adhere tape. Use the 15 band-aid sized pieces of tape on the garment or directly on skin. Leaves no sticky residue and can be cut if smaller areas need to be covered. Hypo-allergenic, latex free tapes are effective and can withstand a number of washings. Convenient, environmentally friendly packaging makes it easy to always be prepared. Keep some at home, in your purse, in the car, at Grandma's and at school.

T1050 \$12.95

LOOK LOOK

Look Look is an amazingly fun and very unique game of 6 different types of visual challenges. Each challenge is determined by one of 68 Look Look challenge cards and involves all players trying to be the first to find what the card instructs.

That might include matching crazy, black and white creatures, matching brightly colored targets, spotting common creatures in 2 specified places and doing some quick basic math once the correct numbers are spotted. Playing surface is created differently with each play depending on which side of the 8 different game board tiles is fitted into which colored game board frame and where each frame is placed. Can easily be adapted by only using 1 or 2 different types of Look Look challenge cards at a time. Fun, exciting game for children and adults alike. If you are looking for a fresh, very unique game to challenge the visual perceptual skills of young and old alike then look no further....Look Look is what you are looking for!

V5041 \$19.95

Pocket Full of Therapy

SOCIAL SKILLS MATTER

Terrifically useful book contains over 80 "mini books", similar to "social stories", used to help teach essential social skills and highlight and reinforce common behavioral expectations. Each chapter focuses on an important developmental theme including: communication, cooperative play, feelings, keeping calm, manners and time at school. The social narratives contained in the mini books are

written in simple language so they can be easily understood and assimilated. Graphics are simple line drawings and students are encouraged to color their mini books increasing interaction and participation. 382 pages best suited for students from 4-8 years. **X7852 \$14.95**

SPINNING TOYS

Newly designed spinning toy is wonderfully engaging. Spin the globe faster and faster til it magically opens revealing its animal surprise inside. Encourages the use of a three point pinch against resistance and isolated thumb movements. Made of plastic. Assorted styles available. Great pre-writing warm-up activity!

P2345 Animal/Butterfly \$3.95

P2347 Under the Sea \$3.95

A MOVING CHILD IS A LEARNING CHILD

Grounded in best practices and current research, this hands-on resource connects the dots that link brain activity, movement and early learning. The Kinetic Scale: a visual map of the active learning needs of infants, toddlers, preschoolers and primary graders that fits each child's individual timetable. Provides teachers, parents and caregivers a wealth of information, tips, games and activities they can use to support healthy development. Full color format. **X3221 \$34.95**

FLINGIN FROGS

The challenge is to flick your frog's just right so fly through the air and land on the different levels of the lily pad, scoring points. But another players' well placed jump can knock you frog off, losing those points. Simple game but players must learn to modulate the force they use if they want to score points. Having a difficult time controlling those jumps...

then just go for distance! Whose frog can jump the furthest? Improves eye-hand coordination, mid-range control and hand and finger skills. Lily pad also acts as convenient storage and travel case; slight assembly required. **P6249 \$7.95**

PHOTO CARDS FOR CRITICAL THINKING

Evidence-based discussion meets critical thinking in this engaging card set. Rich, real-life photos and prompts encourage a personal response from students, improving speaking and listening skills, writing and story telling abilities. Each set includes 40 double-sided cards with photos on one side and 4 thought provoking questions on the reverse; i.e., What might the birds be saying to each other?...Whose birthday do you think it is and why? Terrific addition to any speech/language therapy program or as part of a small group classroom language arts program. Activity guide included.

L5046 Younger Set: pre-K + \$19.95

L5049 Older Set: Grades 1+ \$19.95

RAPID REFLEX

Bethefirstandfastesttoconnectyourbraintoyourhandin this seriously slappy game of super speedy response! When the Action card shows "right hand pickle, players try to be the first one to place their right hand on a green Reflex card. First one there correctly gets the card. First to collect all 8 of the brightly colored reflex cards wins! All 80 Action cards display brilliantly colored objects and corresponding name. Terrifically fun game for building vocabulary, listening and attending skills, visual discrimination, eye-hand coordination and directional and color concepts. **L5037 \$9.95**

Pocket Full of Therapy

Q-BITZ SOLO

Finally, a single user version of this classic OT game is available! Includes 20 new pattern cards, wooden tray, 16 cubes in new colors, all packed in travel and therapy-bag friendly tin box. Amazingly motivating tool for strengthening perceptual design copy and manipulative skill. Perfect for all ages.

V9551 Magenta \$10.00
V9553 Orange \$10.00

TRIBBIT

This game of "froggy fun" has 112 full color cards depicting Frogs in all manner of dress and detail. Players race to assemble 5 full frog sets of 3 cards each, from

their cards. Should this frog be part of the vest set or the glasses gang? Maybe some re-sorting is needed and you can make more sets if he becomes part of the moustache mix? Requires lots of visual work, scanning, sorting, attention to detail along with flexibility of thought and a willingness to view and approach a problem from another direction. **V4468 \$19.95**

ARCHELINO

Can you place all the animals in the Ark while satisfying all their demands? The panda wants to sit next to the lion and the zebra wants to talk to the giraffe but can not be next to the hippo. What to do? With some step by step planning players will be able to place all the animals so everyone is happy. Challenges become more complex as players work their way through the 60 unique logic puzzles building spatial skills, attention to detail and critical thinking. Attractive solid wood pieces.

R1848 \$24.95

EVEN STEVEN'S ODD

Fast paced dice game where everyone races to roll their 6 dice until they get the numbers that complete the challenge on the card, i.e. all #3s or total of the colored dice is less than the total of the white dice. Then they must be the first to grab the squishy "Steven" doll to win the round. For 2-4 players, game comes with 24 dice, 40--2 level challenge cards and 4 dice holder.

Helps improve visual scanning and processing, memory and critical thinking while also working to develop the arches of the hand as dice are cupped in the hands.

V6234 \$19.95

SPOT THE DIFFERENCE

Test your powers of observation and see how many differences you can find between the 2 seemingly identical pictures. Using the included dry erase markers, circle as many differences as you can find until the one minute timer runs out. Pictures

come in 3 difficulty levels with 5, 10, or 15 differences present. Need more time, don't use the timer. Comes with 250 durable, full color picture cards. A visual discrimination and scanning challenge for all ages...great family game!

V6249 \$21.95

TIME TIMER PLUS

Same great concept as always... as time elapses, the red disk gradually disappears. The "Plus" comes from the addition of; a clear, durable protective lens; on-the-go carry handle; volume control dial for the "time is up" beep; easy to control center dial for setting the timer; light weight for easy transport and smooth, silent operation. Sleek new look

makes it the ideal time management tool for all ages and all settings! (See the complete line of Time Timers online)

X9228 \$34.95

Pocket Full of Therapy

POCKET KATAMINO

This smaller, lighter, plastic version of the classic wood game will become a perennial favorite of therapists, teachers and families. Suitable for all

ages, it encourages players to experiment with shapes and geometry while improving spatial awareness and visual imaging skills. Younger children will love simply rearranging the colorful pieces to fit back into the board. For a greater challenge, move divider bar to notch #4 and use any 4 blocks to fit the remaining space or try using the 4 specific blocks indicated on the picture card. The greater the number of pieces used, the more difficult the challenge. Comes with 12 Pentaminos, divider piece and instruction booklet of challenges all self contained in 4x8 inch board with hinged cover. The more you play Katamino, the quicker your visual spatial skills will improve!

R4256 \$21.95

JELIKU

This amazing little, (3"x4"), toy unfolds into countless shapes and designs. Virtually indestructible, Jeliku is the perfect fidget toy, stress reliever, and unique puzzle toy all in one! Appropriate for children of all ages, this hands-on 3D folding puzzle facilitates spatial, logical and creative thinking while challenging eye-hand coordination, fine motor skills and problem solving. Comes with some beginning shape and animal sculpture ideas with more design ideas and step by step folding instructions available on line. Once you have Jeliku in your hands, you won't want to put it down. So buy extra for your friends!

M1945 \$4.95

SPARKLE WHEEL

New and Improved version! Watch the sparks fly as you make the wheel spin! Encourages the use of a three point pinch against resistance and isolated thumb movements. Sparks are safe and colorful. Made of durable plastic. Colors vary.

S3908 \$1.95

PAJAGGLE RINGS

Funny name, great game! Pajaggle Rings is a set of 8 large die cut, 1/4" thick pieces of EVA foam, (2 of each color). Each of these can be broken down into a number of smaller fun-shaped pieces and rings. These pieces can then be connected and re-connected in endless variety of

ways, providing hours of hand/finger work and spatial discovery. 22 activity cards provide a start to the matching, creating and game playing fun, but the flexibility of Pajaggle Rings engages the imagination! Play individually or in groups; on a table top or the floor. Comes in vinyl carry bag with zipper and handle. Pajaggle Rings, soon to be a classic toy and therapy tool!

V4015 \$27.95

SCRATCH ART MINI NOTE

You get a box full of 125 note sized sheets of Rainbow Scratch Art paper each 3 3/4" x 3 3/4" inches in size and a wooden stylus. Perfect size for each student in a group to practice letters, shapes, tracing or just create a happy color filled picture or design. Powerfully motivating way to encourage handwriting and fine motor skills.

W2524 \$6.95

CORNER TO CORNER

The 62 heirloom quality wood tiles in this set can be arranged into fascinatingly colorful patterns and offer endless creative possibilities. Tiles can be placed flat or upright or in some combination of the two generating new effects and varying perceptual challenges each time you play. Some easy to more challenging design ideas are depicted on the box or build your own design copy patterns.

V5050 \$34.95

BIG BOX OF SORTING & CLASSIFYING

This "big box" is chocked full of 250 photos in the shape of puzzle pieces. The 2x2 inch picture pieces are bright and colorful, easy to identify and ready to be sorted into a variety of different categories. A fun, engaging way to build basic concepts and improve thinking and visual discrimination skills. The

included booklet provides directions, teaching suggestions and games, all aimed at presenting strategies to help players develop organizational skills. Enough pieces for multiple players or makes a great classroom center.

L4021 \$24.95

Pocket Full of Therapy

DAY AND NIGHT

A unique product for developing visual perception, design copy, shape and color recognition and fine motor skills in children as young as 3 years. The “day” picture challenges clearly show the color and shapes of the individual wood pieces needed to recreate, on the stand, the chosen picture. The “night” picture challenges only show the picture components in silhouettes with no details provided. Greater visual perception, logical reasoning and problem solving skills are required to re-create these designs. Enticing, brightly colored, all wood toy will last for years.

R5533 \$24.95

CLOUD MATCH-MAKER

Truly unique shape making and matching game. Consists of 24 wooden shape tiles, 24 matching cardboard cards, a card stand and a length of plastic chain-link. Players choose one of the cardboard shape cards and place it in the stand for only them to see. They then arrange and manipulate the chain to resemble the shape they have chosen. Other players try to identify the shape being made by matching it to the correct shapes on one of the wooden tiles. Fun, challenging game increases awareness and perception of geometric shapes while facilitating motor planning, bilateral coordination and manipulative skills.

R3327 \$19.95

SENSO-DOT BALLS

Classic set of four colorful 4 inch balls with soft little nubby points. Balls and bumps are all different colors making them very attractive to both adults and children.. These easy to hold balls provide a great tactile experience. Perfect for therapy or just for fun. Comes inflated.

T4444 \$21.95

SQUEEZE EGG TOY

Simply squeeze the egg and watch the cute little character “pop” out. Release your squeeze and the little guy disappears back into his hideout. Great little tool for working on cause and effect, hand and finger strength, sustained grasp and they are loads of fun and very motivating. Assorted characters .

S1161 \$2.95

SPEED STACKS

What is Speed Stacks®? Speed Stacks® is a set of 12 specially designed plastic cups used to participate in one of the simplest, most therapeutic and readily assessable sports around. Sport stacking is what you do with the cups!

In the competitive version, sanctioned by the World Sport Stacking Association, player’s race against time to build up and take down, specific arrangements of cups. There are thousands of stacking programs in schools around the world. As a therapeutic tool, you can also have Speed Stacks races or use the cups and your imagination to create a wide variety of constructions. A highly motivating tool for improving bilateral coordination, response speed, upper extremity stability and midrange control, crossing midline, as well as overall endurance and coordination. Comes with a set of regulation cups, DVD of instructions and videos and an easy to use, quick release stem to keep your cups together and organized. Ready, Set, Go Stack!

B5413 \$16.95

MINI SPEED STACKS®

Same great activity with adorable, hard to resist, smaller sized cups. Requires a bit more attending and concentration but less range of motion. Perfect size for small hands and requires less space for building.

B5414 \$7.95

TOUCH AND TRACE SANDPAPER CARDS

These sets are perfect for delivering just the right amount of tactile input for reinforcing correct formation and identification of letters and numbers. The specially formulated tracing is not too rough & scratchy, allowing for repeated use without irritating skin but not too soft & smooth as not to leave a sensory effect. Cards are a generous 4”x5” with green dots indicating where to begin tracing and red dots where to stop. Directional arrows teach correct letter/number formation. Each set also includes multisensory activities for letter-sound recognition and instructions in English, Spanish & French.

C4027 Uppercase Letter Set – 26 cards \$16.95

C4029 Lowercase Letter Set – 26 cards \$16.95

C4020 Upper & Lowercase Letter Sets \$32.95

Pocket Full of Therapy

MONKEY MIX-UP

This bright monkey filled collection of 20, two sided pieces is actually 10 puzzles in one. You start by placing any "ground piece", (only those with flowers), in the bottom left corner of the plastic base and continue matching pieces edge to edge, row by row until the puzzle is complete. There are 10 different ground pieces, so 10 different puzzles can be made. Comes with an image of each completed puzzle and uniquely designed "stepped base" that makes it easy to organize, remove and rearrange puzzle pieces. It also gives the completed puzzle an engaging 3D effect. Perfect for improving visual perception including attention to detail, discrimination, directionality, spatial organization, imaging, etc. Challenging for young and old alike. Stop monkeying around and start playing Monkey Mix up!

R3327 \$19.95

TRAVEL QWIRKLE

Finally, this worldwide award winning game is available in a therapy bag friendly, take anywhere travel version. Still beautifully crafted, and easy to manipulate, the 108 mini wood tiles are smaller, lighter and come in a sturdy travel pouch with handle. Every clinic, classroom and household should have this set building, color and shape matching game in either full of travel size. **V5014 \$14.95**

SPOT IT! - NUMBERS, SHAPES, ALPHABET

Spot It! Fever is sweeping the nation. So versatile, easy to learn and easy to play, the Spot It! people have developed a number of new, skill-building games perfect for classroom, therapy or home use. All played in a similar fashion to the original game, they are perfect for working on the visual skills of discrimination, same/different, color, shape, number and letter recognition, along with scanning and ocular motor control. Great vacation games.

V2312 Spot It! Number and Shapes \$9.95

V2314 Spot It! Alphabet \$9.95

BLIND SPELL

This soon to be "Classic" educational game challenges players to spell by touch! Using all their stereognostic skills, players must feel the letters given to them and determine what order they go in to spell their word. Extra letters can be added to the mix each turn for increased challenge. Comes with large blind-fold glasses, timer, 42 sturdy uppercase cardboard

letters, dry erase board with marker, word list and storage bag. Great way to practice spelling words and to develop tactile awareness, attending and focus!

T5056 \$19.95

MULTI MATRIX GAME

Engage the brain with the Multi Matrix Game!

Enhancing cognitive, sensory and motor integration! With this in your "toolbox" you won't need much more! This small package of 25 colored patterned dice, 25 white number dice and 3 pattern cards has the potential to enhance brain development as few products can. Developed by Dr. Carl Hiller, optometrist, these colorfully engaging dice can help improve; spatial processing, reading, pattern recognition, working memory, cognitive endurance, visual scanning and visual fatigue, upper extremity midrange control and fine motor skills, bilateral integration, midline crossing and sensory integration. Tasks look easy and engaging, and the entire brain gets a workout! For use by OT's, teachers or parents, this 3 dimensional block game is a great developmental tool that can be modified to create hundreds of challenges appropriate for both children and adults alike. Includes online, award winning video training course to learn to build challenges to maximize sensory processing, integrate both hemispheres of the brain and accelerate development.

X9854 \$49.95

SPOT IT! - BASIC ENGLISH (SIGHT WORDS)

This terrific game features simple, universal images and basic english words. As with all Spot It! games there is one, and only one, matching symbol between any two cards. Simply Spot It to win! In this version players search for matches between a word and its corresponding picture, between 2 pictures or between 2 words. Comes in small easy to transport tin container.

V2318 \$12.95

SPOT IT - THE ORIGINAL TOY AWARD WINNER!

Truly amazing and wonderfully challenging game of visual discrimination and focus. You get a travel tin full of cards, each filled with colorful, appealing images. The object of the game is to be the first to spot the one and only one matching symbol between any 2 cards. A sharp eye and a bit of speed is all you need to become a Spot It Master! **V2310 \$12.95**

SPOT IT JR.-ORIGINAL YOUNGER VERSION

Jr version has pictures and vocabulary familiar to younger players. **V2317 \$9.95**

Pocket Full of Therapy

THE WRITE RIGHT PENCIL GRIP AND TRAINER

Using the "shark-like" Write Right pencil grip to develop a mature and efficient dynamic tripod grasp is as easy as, "pinch the eyes, cover the mouth and wrap your fingers around the tail." These design features act as visual cues to aid in proper finger placement.

Other unique design features include, the firm, slightly rough outer surface providing lots of tactile feedback, the patented shape and the permanently attached lead pencil. The WriteRight works every time! With improved, more comfortable pencil grasp comes improved pencil control, more legible handwriting with greater endurance. Developed by an OT, the WriteRight grip comes in 3 children's sizes with different moldings for right and left handed grasps. Try it; you and your students will definitely like it!

FASTRACK

Ready, aim, score with this fun, fast-paced disc-flinging game! The goal is to shoot all the wooden discs to the other side of the board through the small opening in the center divider. To accomplish this, players pull the discs back against the elastic band, propelling them forward. Work quickly but accurately or your opponent will clear their side first. Helps improve response speed, modulation of force and attending while also encouraging modification of response based on performance feedback. Careful, Fastrack can quickly become habit forming!

M3007 \$19.95

SAME-DIFFERENT BOOKS

Simple twist on classic activity takes it to a new level of productivity. Students work in pairs or teams on opposite sides of a barrier to discover what's the same and what's different between 2 carefully illustrated

pictures. Develops communication and analytic skills while students attend to the details of each fun picture. Easy set up and play, each book includes instruction, black line illustrations, recording sheets and answer keys for each picture. The holiday version covers each holiday in the school year and the fairy tale book has 11 of your favorite tales. Each book is great on its own but together they are a dynamic duo! V1840 Holidays \$14.95 V1843 Fairy Tales \$14.95 V1842 Both- Book Set \$28.95

POPPIN PEEPERS

These are the best quality, eye poppin little guys available. Squeeze their cute little bodies and watch their big rolley polley eyes pop! Different shaped bodies require different hand positions but they are all perfect for building hand and finger strength and providing visual feedback regarding sustained grasp and endurance. Assorted varieties available, so order several and start your collection!

S1151 \$3.95

STRETCH & MATCH GEO-BOARD

Come explore color and shape with this re-imagined geo board. The 11x11 inch, transparent, wood framed board is also the storage unit for the brightly colored, double sided picture cards and the 32 coated, multicolored rubber bands.

To play, stretch the bands over the pegs, carefully matching the bands to the correct color and form of the dotted or dashed lines printed on the picture template. One of the cards is dry erase so players can create their own designs. Comes with game and other activity ideas and a listing of the easiest to most difficult picture templates. Great for bilateral hand skills, visual perception and fine motor/manipulative skills.

M4045 \$19.95

ARTEC BLOCKS

These vividly colored, beautifully crafted 3/4 inch plastic blocks attach smoothly and snugly in all directions. Create 2 or 3 dimensional pictures, models designs and artwork. Each block has a number of open squares and one square projection for connecting to another block. Each size set comes with a different quantity and type of block and a poster of possible models for copying or to spark the imagination. Terrific product for building fine motor skills, bilateral hand skills, finger/hand strengthening and design copying and motor planning.

GOLDBLOCK SCISSORS

"JUST RIGHT FOR EVERY CHILD "

A unique children's scissor. What makes our scissors unique? Its overall size is small (only 3"), it has short 1" blades and smaller-child size finger holes. This makes them "just right" for little hands. They come in true right or left handed models and they are ADORABLE!

They were designed by an expert in hand function and motor skill development, as a teaching and practice scissor. Their unique features allow young, beginning cutters, as well as children having a difficult time mastering scissor skills, to immediately have greater control. This results in less frustration for child,(teacher and parent too!)and more successful cutting! Check online for quantity discounts.
